EXECUTIVE SUMMARY

1	INTRODUCTION	1
2	SOCIO-ECONOMIC INDICATORS	6
3	FINANCIAL INDICATORS	62
4	REVENUE/EXPENDITURE ANALYSIS	124
5	SELECT USER FEES & REVENUE INFORMATION	242
6	TAX POLICIES	274
7	COMPARISON OF RELATIVE TAXES	284
8	COMPARISON OF WATER/SEWER COSTS	381
9	AVERAGE MUNICIPAL BURDEN AS A % OF INCOME	453
10	ECONOMIC DEVELOPMENT PROGRAMS	468

Executive Summary

Executive Summary—Town of Ingersoll

Socio-Economic Factors

Socio-economic indicators describe and quantify a municipality’s wealth and economic conditions and provide insight into a municipality’s collective ability to generate revenue relative to the municipality's demand for public services. An evaluation of socio-economic factors contributes to the development of sound financial policies. An examination of local economic and demographic characteristics can identify the following situations:

- Changes in the tax base as measured by population, property value, employment, or business activity
- A need to shift public service priorities because of demographic changes in the municipality
- A need to shift public policies because of changes in economic conditions

Socio-Economic Factors	Total Survey		
	Ingersoll	Average	Southwest
2020 Population Density per sq. km.	1,087	549	386
2011-2016 Population Increase %	5.0%	4.8%	3.7%
2019 Building Construction Value per Capita	\$ 2,331	\$ 3,415	\$ 4,136
2020 Estimated Average Household Income	\$ 95,269	\$ 107,715	\$ 106,758
2020 Weighted Median Value of Dwelling	\$ 224,424	\$ 371,559	\$ 319,847
2020 Unweighted Assessment per Capita	\$ 97,010	\$ 174,539	\$ 177,239
2020 Weighted Assessment per Capita	\$ 117,548	\$ 175,380	\$ 162,994

Financial Indicators

The Municipal Financial Indicators section of the report includes a number of measures such as the financial position, operating surplus, asset consumption ratio, reserves, debt and taxes receivables.

Key financial indicators have been included to help evaluate each municipality’s existing financial condition and to identify future challenges and opportunities. A number of Industry recognized indicators that are used by credit rating agencies and/or recommended by Government Finance Officers’ Association (GFOA) and the Ministry of Municipal Affairs and Housing have been included. Indicators related to **Sustainability**, **Flexibility** and **Vulnerability** have been included. It should be noted that Water and Wastewater indicators have also been included in the Water/Wastewater section of the report.

The tables on the following page provide highlights from this section of the report.

Sustainability

The ability to provide and maintain service and infrastructure levels without resorting to unplanned increases in rates or cuts to services.

2019 Sustainability Indicators	Ingersoll	Total Survey Average
Financial Position per Capita	\$ 1,330	\$ 687
Tax Asset Consumption Ratio	40.8%	44.2%
Net Financial Liabilities Ratio	(1.1)	(0.5)

Vulnerability

Addresses a municipality's vulnerability to external sources of funding that it cannot control and its exposure to risks.

2019 Vulnerability Indicators	Ingersoll	Total Survey Average
<u>Reserves</u>		
Tax Reserves (less WWW) as % of Taxation	94.1%	79.7%
Tax Reserves as % of Own Source Revenues	79.1%	59.5%
Tax Reserves / Capita	\$ 991	\$ 831
<u>Debt</u>		
Tax Debt Charges as % of Own Source Revenues	4.6%	4.3%
Total Debt Outstanding / Capita	\$ 248	\$ 732
Tax Debt Outstanding / Capita	\$ 248	\$ 514
Debt Outstanding per Own Source Revenue	19.8%	38.5%
Debt to Reserve Ratio	0.3	0.8

Flexibility

The ability to issue debt responsibly without impacting the credit rating. Also, the ability to generate required revenues.

2019 Flexibility Indicators	Ingersoll	Total Survey Average
Taxes Receivable as % of Taxes Levied	3.5%	5.6%
Rates Coverage Ratio	108.3%	91.6%

Analysis of Net Municipal Levy Per Capita and Per Assessment

In order to better understand the relative tax position for a municipality, another measure that has been included in the study is a comparison of net municipal levies on a per capita and per \$100,000 basis. This measure indicates the total net municipal levy needed to provide services to the municipality. This analysis does not indicate value for money or the effectiveness in meeting community objectives. Net municipal expenditures per capita may vary as a result of:

- Different service levels
- Variations in the types of services
- Different methods of providing services
- Different residential/non-residential assessment composition
- Varying demand for services
- Locational factors
- Demographic differences
- Socio-economic differences
- Urban/rural composition differences
- User fee policies
- Age of infrastructure
- What is being collected from rates as opposed to property taxes

As such, this analysis is not an “apples to apples” comparison of services, but rather has been included to provide insight into the net cost of providing municipal services within each municipality. Further analysis would be required to determine the cause of the differences across each spending envelope and within each municipality. This analysis was completed using the most current information available - net municipal levies as per the 2020 municipal levy by-laws and the 2020 estimated populations.

2020	Ingersoll	Total Survey	
		Average	Southwest
Net Municipal Levy per Capita	\$ 1,551	\$ 1,661	\$ 1,646
Net Municipal Levy per \$100,000 Unweighted CVA	\$ 1,599	\$ 1,082	\$ 1,022

User Fees

A number of user fees have been included in the Study including the following:

2020 Fees	Ingersoll	Total Survey	
		Average	Southwest
Development Charges - Single Detached	\$ 13,867	\$ 37,789	\$ 23,063
Residential Building Permit Fee	\$ 2,100	\$ 2,348	\$ 2,108

Comparison of Tax Ratios

Tax ratios reflect how a property class tax rate compares to the residential rate. Changes in tax ratios affect the relative tax burden between classes of properties. Tax ratios can be used to prevent large shifts of the tax burden caused by relative changes in assessment among property classes as well as to lower the tax rates on a particular class or classes.

2020 Tax Ratios	Total Survey	
	Ingersoll	Average
Multi-Residential	2.0000	1.7603
Commercial (Residual)	1.9018	1.6747
Industrial (Residual)	2.6300	2.1610

Taxes and Comparison of Relative Taxes

The purpose of this section of the report is to undertake “like” property comparisons across each municipality and across various property types. In total there are 12 property types in the residential, multi-residential, commercial and industrial classes. There are many reasons for differences in relative tax burdens across municipalities and across property classes including, but not limited to:

- Differences in values of like properties
- Differences in the tax ratios and the use of optional classes
- Non-uniform education tax rates in the non-residential classes
- Level of service provided and the associated costs
- Extent to which a municipality employs user fees
- Access to other sources of revenues such as dividends from hydro utilities and casino revenues

2020 Property Taxes	Total Survey			
	Ingersoll	Average	Southwest	
Detached Bungalow	\$ 3,201	\$ 3,549	\$ 3,143	
2 Storey Home	\$ 4,258	\$ 4,714	\$ 4,400	
Senior Executive Home	\$ 5,804	\$ 6,560	\$ 6,188	
Walk Up Apartment (per Unit)	\$ 1,785	\$ 1,430	\$ 1,362	
Mid/High Rise (per Unit)	\$ 1,670	\$ 1,802	\$ 1,908	
Neigh. Shopping (per sq. ft.)	\$ 3.99	\$ 3.88	\$ 3.61	
Office Building (per sq. ft.)	N/A	\$ 3.20	\$ 3.14	
Hotels (per Suite)	\$ 2,121	\$ 1,644	\$ 1,562	
Motels (per Suite)	N/A	\$ 1,273	\$ 1,282	
Industrial Standard (per sq. ft.)	\$ 2.57	\$ 1.72	\$ 1.45	
Industrial Large (per sq. ft.)	\$ 1.13	\$ 1.19	\$ 1.08	
Industrial Vacant Land (per Acre)	\$ 2,539	\$ 4,681	\$ 2,631	

Comparison of Water and Sewer User Costs

A comparison was made of water/sewer costs in each municipality. The following table summarizes the costs in the municipality for water and sewer on typical annual consumption against the overall survey average.

2020 Water/Sewer Cost of Service	Total Survey		
	Ingersoll	Average	Southwest
Residential - 200 m ³	\$ 1,258	\$ 1,151	\$ 1,247
Commercial - 10,000 m ³	\$ 27,331	\$ 37,812	\$ 39,373
Industrial - 30,000 m ³	\$ 79,713	\$ 109,553	\$ 112,831
Industrial - 100,000 m ³	\$ 241,807	\$ 355,584	\$ 361,315
Industrial - 500,000 m ³	\$ 1,159,628	\$ 1,751,816	\$ 1,793,684

2020 Property Taxes and Water/Wastewater Costs as a % of Income

This section of the report provides a comparison of the availability of gross household income to fund municipal services on a typical household. This provides a measure of affordability within each community.

2020 Affordability Indicators	Total Survey		
	Ingersoll	Average	Southwest
Property Taxes as a % of Household Income	3.5%	3.8%	3.6%
Water/Sewer + Taxes as a % of Household Income	4.8%	4.8%	4.5%

Economic Development Programs

A summary was completed of programs that municipalities have implemented to promote economic development in the areas of retention and expansion, downtown development, and brownfield redevelopment.

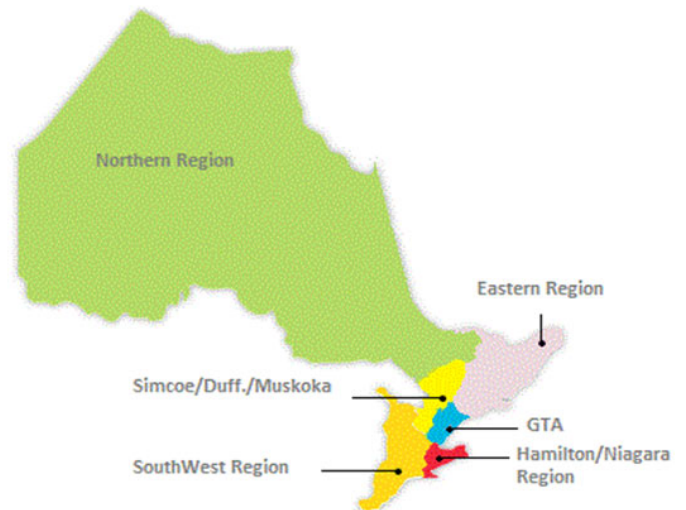

SECTION 1: Introduction

Since 2000, BMA Management Consulting Inc. has annually completed a municipal comparative study on behalf of participating Ontario municipalities. The *Executive Summary* provides an overview of the analysis contained in the comprehensive report.

The study identifies both key quantifiable indicators and selective environmental factors that should be considered as part of a comprehensive evaluation of a local municipality’s financial condition. Use of the study over a number of years provides trends to allow decision makers to monitor selected indicators over time. Trend analysis helps to provide interpretative context. In addition, context can be provided by comparing a municipality’s own experience with the experience of other municipalities.

110 Ontario municipalities, representing in excess of 85% of the population.

<i>Populations</i>	<i>Number of Municipalities</i>
100,000 or greater	27
30,000 - 99,999	30
15,000 - 29,999	22
0 - 14,999	31
Total	110

The analysis was completed using the most recent information available as provided by the participating municipalities including:

- 2020 Current Value Assessment
- 2020 Tax Policies
- 2020 Levy By-laws
- 2020 Development Charges
- 2020 Water/Sewer Rates
- 2019 FIRs
- 2020 User Fees
- Economic Development Programs

2020 Municipalities Included in the Study

The following provides a summary of the municipalities participating by population range:

Populations 15,000 or less	Populations 15,000 – 29,999	Populations 30,000 – 99,999	Populations >100,000
Brock	Bracebridge	Aurora	Barrie
Central Elgin	Brockville	Belleville	Brampton
Chatsworth	Collingwood	Brant	Brantford
Elliot Lake	Huntsville	Bruce County	Burlington
Erin	Kenora	Caledon	Cambridge
Espanola	King	Centre Wellington	Chatham-Kent
Georgian Bluffs	Kingsville	Cornwall	Clarington
Gravenhurst	Lincoln	Dufferin County	Durham Region
Greenstone	Middlesex Centre	East Gwillimbury	Greater Sudbury
Grey Highlands	Niagara-on-the-Lake	Elgin County	Grey County
Guelph-Eramosa	Owen Sound	Fort Erie	Guelph
Hanover	Pelham	Georgina	Halton Region
Hawkesbury	Port Colborne	Grimsbey	Hamilton
Ingersoll	Prince Edward County	Haldimand	Kingston
Kincardine	Saugeen Shores	Halton Hills	Kitchener
Lambton Shores	Springwater	Innisfil	London
Mapleton	Strathroy-Caradoc	Lakeshore	Markham
Meaford	Thorold	Muskoka District	Milton
Minto	Tillsonburg	New Tecumseth	Mississauga
North Dumfries	West Lincoln	Newmarket	Niagara Region
North Middlesex	Wilmot	Niagara Falls	Oakville
North Perth	Woolwich	Norfolk	Oshawa
Parry Sound		North Bay	Ottawa
Puslinch		Orangeville	Peel Region
Southgate		Orillia	Richmond Hill
South Bruce Peninsula		Peterborough	Simcoe County
The Blue Mountains		Quinte West	St. Catharines
Wainfleet		Sarnia	Thunder Bay
Wellesley		Sault Ste. Marie	Toronto
Wellington North		St. Thomas	Vaughan
West Grey		Stratford	Waterloo
		Timmins	Waterloo Region
		Welland	Whitby
		Wellington County	Windsor
		Whitchurch-Stouffville	York Region

SECTION 2: Socio-Economic Indicators

A complete assessment of a municipality’s financial condition should include consideration of socio-economic factors. Socio-economic indicators describe and quantify a municipality’s wealth and economic conditions and provide insight into a municipality’s ability to generate revenue relative to the municipality's demand for public services. An evaluation of socio-economic indicators contributes to the development of sound financial policies.

Land Density

Population density indicates the number of residents living in an area (usually measured by square kilometre). Analysis of density can provide insight into the age of a city, growth patterns, zoning practices and new development opportunities. High population density can indicate whether a municipality may be reaching build-out, as well as service and infrastructure needs, such as additional public transit or street routes. The following graph provides a summary of average population density per square kilometre by geographic location.

Population Growth

The following graph shows the change in population from 2006-2011 and from 2011-2016. As shown in the graph, the GTA municipalities experienced the largest population percentage growth in both periods. Northern municipalities experienced the lowest percentage of population growth.

Household Income

Household income is one measure of a community’s ability to pay. While a higher relative household income is a positive indicator of the overall local economy, it may lead to a greater expectation for quality programs and additional challenges in balancing desired levels of service with a willingness to pay for programs and services. The average household income varies by geographic location. The average household income in Eastern municipalities was \$85,006 compared with \$133,534 in the GTA.

Assessment Per Capita

Property assessment is the basis upon which municipalities raise taxes. A strong assessment base is critical to a municipality’s ability to generate revenues. Assessment per capita statistics have been compared to provide an indication of the “richness” of the assessment base in each municipality. Unweighted assessment provides the actual current value assessment of the properties. Weighted assessment reflects the basis upon which property taxes are levied, after applying the tax ratios to the various property classes to the unweighted assessment. The average assessment per capita is highest in the GTA and lowest in Northern municipalities.

Assessment Change

Assessment growth provides an indication of how the base upon which taxes are levied is changing over time. From 2018—2019, the assessment increased by 5.7% on average across the 110 Ontario municipalities. The GTA geographic area experienced the largest increase at 8.2%.

Municipalities Grouped by Location	2016-2017	2017-2018	2018-2019	2019-2020
North	5.0%	0.7%	3.2%	3.4%
Eastern	4.8%	2.4%	5.9%	4.4%
Niagara/Hamilton	4.5%	5.1%	6.4%	5.9%
Simcoe/Musk./Duff.	3.5%	4.2%	6.5%	6.4%
Southwest	3.7%	4.4%	6.7%	6.2%
GTA	6.0%	8.7%	9.6%	8.2%

Residential Properties

Residential properties were broken down by property type to provide an indication of the housing mix in each municipality. The following graph reflects the average assessed values for residential properties by geographic location.

Construction Activity

The three year average of building permits per capita were analyzed to provide a measure of relative building activity in each municipality and across the geographic locations. The following reflects the results from 2017-2019.

SECTION 3: Municipal Financial Sustainability Indicators

The *Financial Indicators* section of the report includes a number of indicators to assist municipalities in evaluating financial condition. A municipality’s financial position is defined as the total fund balances including equity in business government enterprises less the amount to be recovered in future years associated with long-term liabilities. A comparison was made of each municipality’s overall financial position (assets less liabilities). There is a significant range in municipal financial position per capita across Ontario from a low of negative (\$2,891) to a high of \$5,919 per capita. The following graph provides the percentage of municipalities that fall within each range.

Financial Position Per Capita

Asset Consumption Ratio

The asset consumption ratio reflects the written down value of the tangible capital assets in relation to the historical costs of the assets. This ratio seeks to highlight the aged condition of the assets and the potential asset replacement needs. A higher ratio may indicate significant replacement needs. However, if assets are renewed and replaced in accordance with an asset management plan a high ratio should not be a cause for concern. The following graphs reflect the ratio ranges across the survey for tax, water and wastewater assets.

Tax

Water

Wastewater

Reserves

Reserves are a critical component of a municipality’s long-term financing plan. The following graphs provide the range of reserves as a percentage of own source revenues for tax supported services, water and wastewater. The level of reserves required will vary for a number of reasons including:

- Services provided by the municipality
- Age and condition of infrastructure, inventory of fleet and vehicles supporting municipal operations
- Level of expenditures
- Internal debt and reserve policies
- Targets, ranges established on a reserve by reserve basis
- Economic conditions and projections

Tax % of OSR

Water % of OSR

WW % of OSR

Debt Indicators

Debt indicators can reveal increasing reliance on debt, decreasing flexibility, sudden large increases or decreases in future debt service and the amount of debt that a community can absorb. The following graphs summarize the debt interest ratio for tax, water and wastewater to provide an understanding of the percentage of municipalities within various ranges of the **debt interest ratio**. This ratio indicates the extent to which a municipality’s operating revenues are committed to interest expenses.

Tax

Water

WW

Taxes Receivable as a % of Taxes Levied

Every year, a percentage of property owners is unable to pay property taxes. If this percentage increases over time, it may indicate an overall decline in the municipality’s economic health. Additionally, as uncollected property taxes rise, liquidity decreases. If the percentage of uncollected property taxes increases, over time, it may indicate an overall decline in the municipality’s economic health. The following graph provides a summary of the 2019 taxes receivable as a percentage of taxes levied in each of the geographic areas.

SECTION 4: Revenue & Expenditure Analysis

Net Municipal Levy per Capita and per \$100,000 of assessment

- Different service levels
- Variations in the types of services
- Different methods of providing services
- User fee policies
- Different assessment composition
- Varying demand for services
- Locational factors
- Demographic differences
- Socio-economic differences
- Urban/rural composition differences

An analysis of levy per capita and per \$100,000 of assessment does not indicate value for money or the effectiveness in meeting community objectives. Municipal levies may vary as a result of:

Net municipal levy per capita was calculated using Manifold Data Mining 2020 estimated population and the 2020 municipal levies. The net levy on a per capita basis ranged from \$1,077 to \$3,820 (with an average of \$1,661 per capita). Net levy per \$100,000 of assessment is also provided. The net levy on a per \$100,000 of unweighted assessment basis ranged across the municipalities from \$494 to \$2,252 (with an average of \$1,082 per \$100,000 of assessment).

SECTION 5: Select User Fee and Revenue Information

The *Select User Fee and Revenue Information* section of the report includes development charges, building permit fees, tipping fees and transit fares.

Development Charges

The recovery of costs by Ontario municipalities for capital infrastructure required to support new growth is governed by the Development Charges Act (1997) and supporting regulations. The following table summarizes the 2020 development charges. Note: some municipalities do not charge development charges.

2020 Development Charges	Residential	Multiples Dwelling 3+ bed. per unit	Apartment units >=2 (per unit)	Apartment units < 2 (per unit)	Non-Residential Commercial (per sq.ft.)	Non-Residential Industrial (per sq.ft.)
Eastern	\$ 14,004	\$ 10,541	\$ 8,754	\$ 6,535	\$ 9.52	\$ 5.57
North	\$ 18,235	\$ 10,524	\$ 10,524	\$ 10,524	\$ 4.43	\$ 3.05
Southwest	\$ 23,063	\$ 17,081	\$ 13,780	\$ 11,618	\$ 9.36	\$ 7.03
Niagara/Hamilton	\$ 34,421	\$ 24,683	\$ 22,754	\$ 14,425	\$ 18.26	\$ 8.72
Simcoe/Musk./Duff.	\$ 35,339	\$ 29,402	\$ 22,386	\$ 16,820	\$ 12.61	\$ 8.89
GTA	\$ 85,125	\$ 69,298	\$ 52,139	\$ 38,267	\$ 49.10	\$ 24.46

SECTION 6: Tax Policies

The relative tax burden in each class of property will be impacted by the type of tax policies implemented in each municipality. As such, an analysis of the 2020 tax policies that impact the relative tax position was completed. The following table summarizes the range of 2020 tax ratios across the survey.

2020 Tax Ratios	Average	Median	Min.	Max.
Multi-Residential	1.7603	1.8678	1.0000	2.4876
Commercial	1.6747	1.6929	1.0820	2.7000
Industrial	2.1610	2.0907	1.1000	4.6068

SECTION 7: Comparison of Relative Taxes

Like property comparisons were undertaken on 12 property types that were of most interest to the participating municipalities. In order to calculate the relative tax burden of “like” properties, every effort was made to hold constant those factors deemed to be most critical in determining a property’s assessed value. There are many reasons for differences in relative tax burdens across municipalities and across property classes. These include, but are not limited, to the following:

- The values of like properties vary significantly across municipalities
- The tax ratios in each class and the use of optional classes
- Non-uniform education tax rates in the non-residential classes
- Tax burdens across municipalities also vary based on the level of service provided and the associated costs of providing these services
- Extent to which a municipality employs user fees or has access to other sources of revenues such as dividends from hydro utilities, gaming & casino revenues

Residential Properties	Detached Bungalow	2 Storey	Senior Executive	Industrial Properties	Standard per sq.ft.	Large per sq.ft.	Vacant Land per acre
Eastern	\$ 3,287	\$ 4,601	\$ 6,525	Eastern	\$ 1.64	\$ 1.28	\$ 3,245
GTA	\$ 4,478	\$ 5,239	\$ 7,232	GTA	\$ 2.19	\$ 1.59	\$ 10,986
Niagara/Hamilton	\$ 3,799	\$ 5,016	\$ 6,742	Niagara/Hamilton	\$ 2.02	\$ 1.00	\$ 4,824
North	\$ 3,234	\$ 4,909	\$ 6,766	North	\$ 1.95	\$ 1.04	\$ 3,235
Simcoe/Musk./Duff.	\$ 3,332	\$ 4,395	\$ 5,933	Simcoe/Musk./Duff.	\$ 1.35	\$ 0.95	\$ 2,536
Southwest	\$ 3,143	\$ 4,400	\$ 6,188	Southwest	\$ 1.45	\$ 1.08	\$ 2,631
Survey Average	\$ 3,549	\$ 4,714	\$ 6,560	Survey Average	\$ 1.72	\$ 1.19	\$ 4,681
Survey Median	\$ 3,527	\$ 4,788	\$ 6,466	Survey Median	\$ 1.74	\$ 1.15	\$ 2,618

Multi-Residential Properties	Walk-Up per Unit	High-Rise per Unit	Commercial Properties	Office per sq.ft.	Neigh. Shopping per sq.ft.	Hotel per suite	Motel per suite
Eastern	\$ 1,786	\$ 2,185	Eastern	\$ 3.33	\$ 4.33	\$ 1,954	\$ 1,458
GTA	\$ 1,412	\$ 1,583	GTA	\$ 3.50	\$ 4.33	\$ 1,434	\$ 1,297
Niagara/Hamilton	\$ 1,683	\$ 1,818	Niagara/Hamilton	\$ 2.98	\$ 4.25	\$ 1,957	\$ 1,173
North	\$ 1,429	\$ 1,776	North	\$ 3.21	\$ 3.59	\$ 1,390	\$ 1,286
Simcoe/Musk./Duff.	\$ 1,128	\$ 1,586	Simcoe/Musk./Duff.	\$ 2.97	\$ 3.55	\$ 1,899	\$ 1,165
Southwest	\$ 1,362	\$ 1,908	Southwest	\$ 3.14	\$ 3.61	\$ 1,562	\$ 1,282
Survey Average	\$ 1,430	\$ 1,802	Survey Average	\$ 3.20	\$ 3.88	\$ 1,644	\$ 1,273
Survey Median	\$ 1,422	\$ 1,854	Survey Median	\$ 3.21	\$ 3.90	\$ 1,527	\$ 1,263

SECTION 8: Comparison of Water/Sewer Costs

The establishment of water and sewer rates is a municipal responsibility and the absence of standard procedures across Ontario has resulted in the evolution of a great variety of rate structure formats. There was considerable diversity across the survey in terms of the costs of water/sewer and how services are charged.

Volume Meter Size	Residential 200 m ³ 5/8"	Commercial 10,000 m ³ 2"	Industrial 30,000 m ³ 3"	Industrial 100,000 m ³ 4"	Industrial 500,000 m ³ 6"
Average	\$ 1,151	\$ 37,812	\$ 109,553	\$ 355,584	\$ 1,751,816
Median	\$ 1,113	\$ 36,412	\$ 107,675	\$ 337,995	\$ 1,684,863
Min	\$ 522	\$ 10,980	\$ 25,180	\$ 113,271	\$ 478,115
Max	\$ 2,131	\$ 69,991	\$ 194,112	\$ 647,040	\$ 3,235,200

SECTION 9: Property Taxes and Water/Wastewater as a % of Income

A comparison was made of relative property tax burdens and water/sewer costs on comparable properties against the median household incomes. The report also calculates the total municipal tax burden as a percentage of income available on an average household.

Total Municipal Burden as a % of Household Income	
GTA	4.6%
Southwest	4.5%
North	5.0%
Niagara/Hamilton	5.2%
Simcoe/Musk./Duff.	5.3%
Eastern	5.5%

SECTION 10: Economic Development Programs

Business Retention & Expansion Programs

Downtown/Area Specific Programs

Brownfield Redevelopment

Introduction—Municipal Study 2020

Introduction

For the past nineteen years, BMA Management Consulting Inc. has annually completed a municipal comparative study on behalf of participating Ontario municipalities. This report brings together a group of indicators to give an overall snapshot for each municipality. The analysis was completed using the most recent information available as provided by the participating municipalities including:

- 2020 current value assessment
- 2020 tax policies
- 2020 levy by-laws
- 2020 development charges
- 2020 water/sewer rates
- 2019 FIRs
- 2020 user fees
- Economic development programs

To facilitate the analysis, given the significant volume of information included in the report, the information is also accessible through BMA's online password protected database. This provides the participating municipalities with the ability to select only those municipalities that are of interest and to focus on specific areas of interest. The database also provides the ability to analyze trends, with data available over a five year period. The database can be accessed from the BMA website: **www.bmaconsult.com**. This information can be downloaded from the website into Excel to allow municipalities the ability to track their progress over time and to focus their analysis on specific comparators which can be incorporated into reports and presentations.

For more information please feel free to contact:

Why Participate in a Study?

The study identifies key financial and economic indicators and factors that should be considered as part of a comprehensive evaluation of a municipality's financial condition. Use of the study over a number of years provides trends to allow decision makers to monitor selected indicators over time. Trend analysis helps to provide interpretative context. Additional context can come from comparing a municipality's own experience with the experience of other municipalities. While the study includes 110 municipalities, it is recommended that the users take advantage of the online database to focus on similar municipalities.

Many of the analytical techniques included in the report are consistent with approaches used by credit rating agencies and are also used by the International City/County Management Association (ICMA). The information contained in this report can help local municipalities analyze and interpret financial, economic and demographic trends. Trend analysis is critical to truly understand and evaluate a municipality's financial condition and to provide early warning signals of potential or emerging financial problems.

It is anticipated that the consolidation of the financial and economic indicators contained in the Municipal Study will achieve the following goals and objectives:

- To help municipal decision-makers in assessing market conditions
- To understand the unique characteristics of each municipality
- To understand the relationship between various controllable and uncontrollable factors in addressing a municipality's competitive opportunities and challenges
- To develop a database of material that can be updated in future years to assess progress and establish targets
- To create awareness of the trends and the potential need to modify policies
- To assist in aligning municipal decisions in property taxation with other economic development programs and initiatives
- To assist municipalities in developing a long-term strategy for property taxation to achieve municipal competitive objectives in targeted property classes
- To create a baseline source of information that will assist municipalities in addressing specific areas of concern and to gain a better understanding of how other municipalities have addressed similar concerns
- To understand the impact of reassessment and growth
- To identify areas that may require further review (e.g. service levels, user fees, service delivery)

Municipalities Represented in the Study

The following summarizes the municipalities by population range:

<i>Populations 15,000 or less</i>	<i>Populations 15,000 – 29,999</i>	<i>Populations 30,000 – 99,999</i>	<i>Populations >100,000</i>
Brock	Bracebridge	Aurora	Barrie
Central Elgin	Brockville	Belleville	Brampton
Chatsworth	Collingwood	Brant	Brantford
Elliot Lake	Huntsville	Bruce County	Burlington
Erin	Kenora	Caledon	Cambridge
Espanola	King	Centre Wellington	Chatham-Kent
Georgian Bluffs	Kingsville	Cornwall	Clarington
Gravenhurst	Lincoln	East Gwillimbury	Durham Region
Greenstone	Middlesex Centre	Elgin County	Greater Sudbury
Grey Highlands	Niagara-on-the-Lake	Fort Erie	Guelph
Guelph-Eramosa	Owen Sound	Georgina	Halton Region
Hanover	Pelham	Grey County	Hamilton
Hawkesbury	Port Colborne	Grimsby	Kingston
Ingersoll	Prince Edward County	Haldimand	Kitchener
Kincardine	Saugeen Shores	Halton Hills	London
Lambton Shores	Springwater	Innisfil	Markham
Mapleton	Strathroy-Caradoc	Lakeshore	Milton
Meaford	Thorold	Muskoka District	Mississauga

Wellington North		St. Thomas	Waterloo Region
West Grey		Stratford	Waterloo
		Timmins	Whitby
		Welland	Windsor
		Wellington County	York Region
		Whitchurch-Stouffville	

Socio-Economic Indicators

Socio-Economic Indicators

A complete assessment of local government's financial condition should include socio-economic factors. Socio-economic indicators describe and quantify a municipality's wealth and economic conditions and provide insight into a municipality's collective ability to generate revenue relative to the municipality's demand for public services. An examination of local economic and demographic characteristics can identify the following situations:

- A decline in the tax base as measured by population, property value, employment, or business activity
- A need to shift public service priorities because demographic changes in the municipality
- A need to shift public policies because of changes in economic conditions

An evaluation of socio-economic factors contributes to the development of sound financial policies. The ***Socio-Economic Factors*** section of the report includes the following information to assist municipalities in understanding some basic facts about each municipality included in the study.

- ***Population Statistics (2006-2020)***
 - ***Note: Manifold Data Mining estimates for 2020 includes the undercount, normally 3-5% of population***
- ***Age Demographics***
- ***Average Household Income***
- ***Land Area and Density***
- ***Labour Statistics***
- ***Assessment Per Capita***
- ***Change in Unweighted Assessment (2015-2020)***
- ***Assessment Composition By Class***
- ***Consolidated Unweighted and Weighted Assessment (Residential vs. Non-Residential)***
- ***Shift in Tax Burden—Unweighted to Weighted Residential Assessment***
- ***Residential Properties by Type***
- ***Building Construction Activity (Residential, Non-Residential)***

Population of Ontario Regions, 2019 and 2046

The **Ministry of Finance** produces an updated set of population projections every year to provide a demographic outlook reflecting the most up-to-date trends and historical data.

- Ontario's population is projected to increase by 31.5%, or almost 4.6 million, over the next 27 years, from an estimated 14.6 million on July 1, 2019 to almost 19.2 million by July 1, 2046.
- In the short-term, the growth of Ontario's population is projected to be affected by the COVID-19 pandemic through both the disruptions to migration flows resulting from the travel restrictions and the associated slightly higher mortality. From a rate of 1.7% last year (2018–19), the pace of annual growth of the provincial population is projected to decrease to 1.3 per cent in 2019–20 and 1.2% in 2020–21, before rising to 1.4% in 2021–22. Thereafter, it is projected to ease gradually over time, reaching 0.9% by 2045–46.
- Net migration is projected to account for 83% of all population growth in the province over the 2019–2046 period, with natural increase accounting for the remaining 17%. In the second half of the projections, the contribution of natural increase will moderate once all baby boomers will have reached their senior years, and the number of deaths will start to increase more rapidly.
- The number of seniors aged 65 and over is projected to almost double from 2.5 million, or 17.2% of population, in 2019 to 4.5 million, or 23.3%, by 2046. The growth in the share and number of seniors accelerates over the 2019–2031 period as baby boomers turn age 65. After 2031, the growth in the number of seniors slows significantly.
- The number of children aged 0–14 is projected to increase moderately over the projection period, from 2.3 million in 2019 to 2.8 million by 2046. The children's share of population is projected to decrease gradually from 15.7% in 2019 to 14.8% by 2046.
- The number of Ontarians aged 15–64 is projected to increase from 9.8 million in 2019 to 11.9 million by 2046. This age group is projected to decline as a share of total population, from 67.1% in 2019 to 61.9% by 2046. As baby boomers continue to turn age 65, the growth in population aged 15–64 slows until 2027–28 and then accelerates slightly over the remainder of the projection.
- The Greater Toronto Area (GTA) is projected to be the fastest growing region of the province, with its population increasing by 2.6 million, or 36.7%, from 7.0 million in 2019 to over 9.5 million by 2046. The GTA's share of provincial population is projected to rise from 47.9% in 2019 to 49.8% in 2046.
- The five other regions are also projected to see growing populations over the projection period. With the exception of Central Ontario, the other regions are projected to grow at a slower pace than the provincial average. As a result, the share of Ontario's total population that each of these four regions represents is projected to decline over time.
- All regions will see a shift to an older age structure. The GTA is expected to remain the region with the youngest age structure as a result of strong international migration and positive natural increase.

Age Demographics

The age profile of a population may affect municipal expenditures. For example, expenditures may be affected by seniors requiring higher public service costs and families with young children demanding services for recreational, and related programs.

Sources: Statistics Canada for 2019, and Ontario Ministry of Finance projections.

- The median age of Ontario’s population is projected to rise from 40.4 years in 2019 to 42.8 years in 2046. The median age for women climbs from 41.7 to 44.1 years over the projection period, while for men it is projected to increase from 39.1 to 41.5 years.
- The number of seniors aged 65 and over is projected to almost double from about 2.5 million, or 17.2 per cent of population in 2019, to almost 4.5 million, or 23.3 per cent, by 2046. In 2016, for the first time, seniors accounted for a larger share of population than children aged 0–14.
- By the early 2030s, once all baby boomers have reached age 65, the pace of increase in the number and share of seniors is projected to slow significantly. The annual growth rate of the senior age group is projected to slow from an average of 3.3 per cent over 2019–31 to 0.9 per cent by the end of the projection period.
- The older age groups will experience the fastest growth among seniors. The number of people aged 75 and over is projected to rise from 1.1 million in 2019 to almost 2.7 million by 2046. The 90+ group will more than triple in size, from 130,000 to 443,000.

2020 Estimated Average Household Income

Household income is one measure of a community's ability to pay for services. While a higher relative household income is a positive indicator of the overall local economy, it may lead to a greater expectation for quality programs and additional challenges in balancing desired levels of service with a willingness to pay for programs and services.

Summary 2020 Average Household Income by Geographic Location

Land Area and Density

Population density indicates the number of residents living in an area (usually measured by square kilometre). Density readings can lend insight into the age of a city, growth patterns, zoning practices, new development opportunities and the level of multi-family unit housing. High population density can also indicate whether a municipality may be reaching build-out, as well as service and infrastructure needs such as additional public transit or street routes. As stated by the **Province of Ontario** in their InfoSheet: Planning for Intensification, some of the benefits of intensification include:

- *Using resources such as lands, buildings and infrastructure more effectively*
- *Protecting the natural environment and biodiversity by limiting urban expansion*
- *Incorporating green features that offset and support new development*
- *Creating active streets that promote healthier patterns of human activity*
- *Creating economic opportunities*
- *Reducing carbon footprint*
- *Improving access to public transit*
- *Enhancing community identity*
- *Improving municipal fiscal performance*

Labour Statistics

The labour force is defined as the number of people aged 15 and over who are employed and unemployed. Labour force statistics are an important measure of the economy’s potential. The larger the percentage of the population that enters the labour force, the larger the potential output and standard of living. Growth in the labour force implies expansion potential. The rate of employment of the community’s citizens is a measure of and an influence on the community’s ability to support its local business sector. A decline in employment base or higher than average rates of unemployment can be a warning signal that overall economic activity may be declining. Unemployment does not capture working age residents who are unemployed and are no longer actively seeking employment. The employment rate provides a fuller picture of employment in the community.

Labour Statistics CMA

Assessment Per Capita (Sorted by Unweighted Assessment)

Property assessment is the basis upon which municipalities raise taxes. A strong assessment base is critical to a municipality’s ability to generate revenues. Assessment per capita statistics have been compared to provide an indication of the “richness” of the assessment base in each municipality.

Unweighted assessment provides the actual current value assessment of the properties.

Weighted assessment reflects the basis upon which property taxes are levied after applying the tax ratios to the various property classes to the unweighted assessment.

Unweighted Assessment—Trend

The tables on the next several pages reflect the change in unweighted assessment from 2015-2020. The changes in assessment trends are related to new growth as well as changes in market value of existing properties. The changes include the impact of reassessment as well as growth. The table has been sorted from low to high for the 2019-2020 % change in assessment.

2020 Shift In Tax Burden—Unweighted to Weighted Residential Assessment

As shown in the table, tax ratios typically shift the burden from residential to non-residential properties. Approximately 64% of the municipalities surveyed, have a decrease in tax burden on the Residential class as a result of tax ratios for non-residential classes greater than 1.0. The implementation of tax ratios to the assessment base for municipalities with a larger proportion of farmland and managed forest results in an increase in the residential burden.

Municipality	Residential Unweighted Assessment	Residential Weighted Assessment	Change % Unweighted to Weighted	Municipality	Residential Unweighted Assessment	Residential Weighted Assessment	Change % Unweighted to Weighted

The weighted median assessed value for residential properties range from an average of \$218,000 in northern municipalities to \$631,000 in the GTA.

Building Construction Activity (sorted from lowest to highest 2019 activity per capita)

The table summarizes the 2019 residential and non-residential building permit values in each area municipality. To put these values into context, the building permit value per capita is also summarized to get an appreciation of the relative building activity in each municipality. The chart is sorted from lowest to highest based on building permit value per capita for 2019.

**Summary—3 Year Average Building Construction Activity Per Capita (2017, 2018, 2019) —
Total Survey by Location**

Financial Indicators

Financial Sustainability Indicators

As described by the Canadian Institute of Chartered Accountants (CICA), the intent of providing an evaluation of a municipality’s financial condition is to evaluate a municipality’s financial outlook and performance. This will help form the foundation for the establishment of a long range financial plan.

Key financial and socio-economic indicators have been included to help evaluate each municipality’s existing financial condition and to identify future challenges and opportunities. Industry recognized indicators that are used by credit rating agencies and/or recommended by Government Finance Officers’ Association (GFOA) and the Ministry of Municipal Affairs and Housing have been included. A number of indicators have been included

S **Sustainability**

The ability to provide and maintain service and infrastructure levels without resorting to unplanned increases in rates or cuts to services

V **Vulnerability**

Addresses a municipality’s vulnerability to external sources of funding that it cannot control and its exposure to risks.

F **Flexibility**

The ability to issue debt responsibly without impacting the credit rating. Also, the ability to generate required revenues.

“The usefulness of indicators is not in the numbers themselves, but the analysis of what is driving the indicator. It may, therefore, be more useful to consider the combined results of several broad indicators in assessing performance rather than any one indicator on its own.”

Source: Local Government Financial Sustainability, Nationally Consistent Frameworks, published by Local Government and Planning Ministers’ Council (Australia), May 2007

Net Financial Position Indicators

Financial position is a key indicator of a municipality’s financial health. Two key financial position indicators have been included to illustrate a municipality’s financial position. The net financial position is a broader measure of a municipality’s indebtedness than debenture debt as it includes all of a municipality’s financial assets and liabilities. Net Financial Liabilities Ratio is total liabilities minus assets as a percentage of own source revenues. This ratio indicates the extent to which financial liabilities could be met by its operating revenue. A ratio greater than zero indicates that total liabilities exceed the total assets.

Formula

Schedule 70 in the Financial Information Return is used in these calculations of Financial Position as well as Own Source Revenues which is taken from Schedule 81.

$$\text{Net Financial Position per Capita} = \frac{\text{Net Financial Position}}{\text{Population}}$$

$$\text{Net Financial Liabilities Ratio} = \frac{\text{Net Financial Position}}{\text{Own Source Revenues}}$$

Target

There is no optimal number or range for these indicators, it varies according to a municipality’s financial position.

Interpretation

It is important that a municipality understands what is driving these indicators and monitors their trends. The financial position provides an indication of the affordability of future municipal spending.

Financial Indicators

The ***Financial Indicators*** section of the report includes a number of indicators to assist municipalities in evaluating financial condition. Indicators related to Sustainability, Vulnerability and Flexibility have been included. It should be noted that Water and Wastewater indicators have also been included in the Water/Wastewater section of the report.

When the information is plotted over time, these trends can be used to monitor changes in financial condition and alert the municipality to future problems. We are committed to refining and developing additional data to have more efficient and effective benchmarking tools for municipalities.

Sustainability

- ***Financial Position Per Capita***
- ***Net Financial Liabilities Ratio***
- ***Asset Consumption Ratio***

Flexibility

- ***Reserves***
 - ***Tax Discretionary Reserves as a % of Taxation***
 - ***Discretionary Reserves as a % of Own Source Revenues***
 - ***Reserves per Capita***
- ***Debt***
 - ***Tax Debt Interest as a % of Own Source Revenues***
 - ***Debt Charges as a % of Own Source Revenues***
 - ***Total Debt Outstanding Per Capita***
 - ***Debt Outstanding Per Own Source Revenues***
 - ***Debt to Reserve Ratio***
 - ***Tax Debt Outstanding per \$100,000 of Unweighted Assessment***

Vulnerability

- ***Taxes Receivable as a % of Tax Levied***
- ***Rates Coverage Ratio***

Financial Position Per Capita—Trend

A comparison was made of each municipality’s overall financial position (financial assets less liabilities) over time on a per capita basis.

Total Asset Consumption Ratio

This indicator provides an estimate of the useful life left in the municipality’s capital assets. Municipalities are facing significant infrastructure challenges. Therefore, it is important to keep informed of the age and condition of its capital assets to ensure they are making timely and appropriate investments. This is calculated using Schedule 51 of the Financial Information Return.

Formula

$$\frac{\text{Total Accumulated Amortization}}{\text{Total Gross Costs of Capital Assets}}$$

Interpretations

This ratio shows the value of the tangible capital assets that have been consumed. This ratio seeks to highlight the aged condition of the assets and the potential asset replacement needs. A higher ratio may indicate significant replacement needs. However, if assets are renewed and replaced in accordance with an asset management plan a high ratio should not be a cause for concern. The Ministry of Municipal Affairs and Housing considers a ratio of 25% or under to be relatively new; 26%-50% to be moderately new; 51%-75% to be moderately old and over 75% to be old.

Summary—2019 Asset Consumption Ratio—Total Survey

Reserves

Reserves are a critical component of a municipality’s long-term financing plan. The purpose for maintaining reserves is to:

- Provide stability of tax rates in the face of variable and uncontrollable factors (consumption, interest rates, unemployment rates, changes in subsidies)
- Provide financing for one-time or short-term requirements without permanently impacting the tax and utility rates
- Make provisions for replacements/acquisitions of assets/infrastructure that are currently being consumed and depreciated
- Avoid spikes in funding requirements of the capital budget by reducing their reliance on long-term debt borrowings
- Provide a source of internal financing
- Ensure adequate cash flows
- Provide flexibility to manage debt levels and protect the municipality’s financial position
- Provide for future liabilities incurred in the current year but paid for in the future

Three financial indicators have been included for tax reserves. In each case, the water and wastewater reserves and reserve funds have been excluded as well as obligatory reserve funds.

Reserve Financial Indicator One: Tax Discretionary Reserves as a % of Taxation

This provides the total tax discretionary reserves and reserve funds using Schedule 60 of the Financial Information Returns (columns 2 and 3) in relation to total taxation (Schedule 10 of the Financial Information Return).

Formula

$$\frac{\text{Tax Discretionary Reserves}}{\text{Taxation}}$$

Reserve Financial Indicator Two: Tax Discretionary Reserves per Capita

This provides the total tax discretionary reserves in relation to the population.

Formula

$$\frac{\text{Tax Discretionary Reserves}}{\text{Population}}$$

Reserve Financial Indicator Three: Tax Discretionary Reserves as a % of Own Source Revenues

This indicator shows the total value of funds held in reserves and reserve funds compared to a single year’s own source revenue and is a strong indicator of financial stability. This provides the total tax discretionary reserves and reserve funds using Schedule 60 of the Financial Information Returns (columns 2 and 3) in relation to own source revenues (Schedule 81 of the Financial Information Return, less water and wastewater own source revenues which are on Schedule 12).

Formula

$$\frac{\text{Tax Discretionary Reserves}}{\text{Own Source Revenues}}$$

Interpretations

Reserves offer liquidity which enhances the municipality’s flexibility in addressing operating requirements and in permitting the municipality to temporarily fund capital projects internally, allowing it time to access debt markets and take advantage of favourable conditions. The level of reserves required will vary for a number of reasons including:

- Services provided by the municipality
- Age and condition of infrastructure, inventory of fleet and vehicles supporting municipal operations
- Level of expenditures
- Internal debt and reserve policies
- Targets, ranges established on a reserve by reserve basis
- Economic conditions and projections

Debt

The Ministry of Municipal Affairs and Housing regulates the level of debt that may be incurred by municipalities, such that no more than 25% of the total Own Source Revenue can be used to service debt and other long-term obligations without receiving OMB approval. In addition to confirming that the debt is within the legislated limits, Government Finance Officers' Association (GFOA) recommends the following analysis be undertaken:

Measures of the tax and revenue base, such as:

- Projections of key, relevant economic variables
- Population trends
- Utilization trends for services underlying revenues

Evaluation of trends relating to the government's financial performance, such as:

- Revenues and expenditures
- Net revenues available after meeting operating requirements
- Reliability of revenues expected to pay debt service
- Unreserved fund balance levels

Debt service obligations such as:

- Existing debt service requirements
- Debt service as a percentage of expenditures, or tax or system revenues

There are six financial debt indicators that have been included in the analysis to provide a clear understanding of the overall debt outstanding and the debt servicing costs.

Financial Debt Indicator One: Tax Debt Interest as % of Own Source Revenues

This ratio indicates the extent to which the municipality's own source revenues are committed to debt interest charges. This is calculated using Schedule 40 of the Financial Information Returns and the Own Source Revenues in Schedule 81 less Water/WW revenues in Schedule 12.

Formula

$\frac{\text{Tax Debt Interest}}{\text{Own Source Revenues}}$

Financial Debt Indicator Two: Debt Charges as a % of Own Source Revenues (Debt Service Ratio)

Debt Service is the amount of principal and interest that a municipality must pay each year to service the debt (principal and interest expenses). As debt service increases it reduces expenditure flexibility. This shows the % of total debt expenditures, including interest as a % of own source revenue. It is a measure of the municipality’s ability to service its debt payments. Schedule 74C has been used for the total debt charges (line 3099) and the tax debt charges (line 3012).

Formula

$$\frac{\text{Debt Principal and Interest Payments}}{\text{Own Source Revenue}}$$

Target

Credit rating agencies consider that principal and interest should be below 10% of Own Source Revenues.

Interpretations

This indicator will trigger a warning if the increase in debt service consistently exceeds the increase in own source revenues.

Financial Debt Indicator Three: Debt Outstanding per Capita

This provides the debt outstanding as reflected on Schedule 74A divided by the population.

Formula

$$\frac{\text{Total Debt Outstanding}}{\text{Population}}$$

Financial Debt Indicator Four: Debt Outstanding Per Own Source Revenues

This provides the debt outstanding as reflected on Schedule 74A divided by the municipality's own source revenues as reflected in Schedule 81.

Formula

$$\frac{\text{Total Debt Outstanding}}{\text{Own Source Revenue}}$$

Financial Debt Indicator Five: Debt to Reserve Ratio

Formula

$$\frac{\text{Debt Outstanding}}{\text{Reserves and Reserve Funds (Excluding Obligatory Reserve Funds)}}$$

Financial Debt Indicator Six: Debt Outstanding as a % of Unweighted Assessment

This provides the debt outstanding as reflected on Schedule 74A divided by the municipality's own source revenues as reflected in Municipality's Levy by-laws.

Formula

$$\frac{\text{Total Debt Outstanding}}{\text{Unweighted Assessment}}$$

Target

This indicator provides a measure for financial prudence by comparing total debt to the total reserve balances. Generally, the benchmark suggested by credit rating agencies for this ratio is 1:1 or in other words, debt should not exceed total reserve and reserve fund balances. A 1:1 ratio reflects that for every dollar of debt there is a dollar of reserves.

Taxes Receivable as a % of Taxes Levied

This ratio is a strong indicator of the strength of a local economy and the ability of residents to pay their annual taxes. This is calculated using Schedule 72A of the Financial Information Returns.

Formula

$$\frac{\text{Taxes Receivable}}{\text{Taxes Levied}}$$

Target

Credit Rating agencies consider over 8% a negative factor.

Interpretations

If this percentage increases over time, it may indicate a decline in the municipality’s economic health.

Rates Coverage Ratio

The Rates Coverage Ratio provides a measure of the municipality’s ability to cover its costs through its own sources of revenue. According to the Ministry of Municipal Affairs and Housing, a basic target is 40%-60%; an intermediate is 60%-90% and an advanced target is 90% or greater.

Revenue and Expenditure Analysis

Revenue and Expenditure Analysis

The net per capita operating costs are calculated using schedule 40 FIR expenditures less schedule 12 revenues (excluding Tangible Capital Asset Grants). Changes in per capita expenditures reflect changes in expenditures relative to population. Increasing per capita expenditures can indicate that the cost of providing services is outstripping the community's ability to pay, especially if spending is increasing faster than the resident's collective personal income. If the increase in spending is greater than can be accounted for by inflation or the addition of new services, it may indicate declining productivity. This section also includes, where appropriate, calculations of the revenue recovery for various services. Staffing levels have also been included in select schedules. Note: The Water and Wastewater has been moved to the Water/WW section of the report.

The following information has been included in this section of the report:

- ***Net Municipal Levy (2020 Levy Bylaw)***
 - ***Per Capita and sorted by Location***
 - ***Per \$100,000 of Unweighted and Weighted Assessment***
- ***General Government***
- ***Protection Services***
 - ***Fire, Police***
 - ***Court Security and Prisoner Transportation***
 - ***Conservation Authority***
 - ***Protective Inspection and Control***
 - ***POA***
- ***Transportation Services***

 - ***Museums***
 - ***Cultural Services***
- ***Planning and Development Services***
 - ***Planning***
 - ***Commercial and Industrial***

Analysis of Net Municipal Levy Per Capita

In order to better understand the relative tax position for a municipality, another measure that has been included in the study is a comparison of net municipal levies on a per capita basis. This measure indicates the total net municipal levy needed to provide services to the municipality. This analysis does not indicate value for money or the effectiveness in meeting community objectives. Net municipal expenditures per capita may vary as a result of:

- Different service levels
- Variations in the types of services
- Different methods of providing services
- Different residential/non-residential assessment composition
- Varying demand for services
- Locational factors
- Demographic differences
- Socio-economic differences
- Urban/rural composition differences
- User fee policies
- Age of infrastructure
- What is being collected from rates as opposed to property taxes

As such, this analysis is not an “apples to apples” comparison of services, but rather has been included to provide insight into the net cost of providing municipal services within each municipality. Further analysis would be required to determine the cause of the differences across each spending envelope and within each municipality. This analysis was completed using the most current information available - net municipal levies as per the 2020 municipal levy by-laws and the 2020 estimated populations.

Changes in per capita expenditures reflect changes in expenditures relative to changes in population. Increasing per capita expenditures may indicate that the cost of providing services is outstripping the community’s ability to pay, especially if spending is increasing faster than the resident’s collective personal income. Examining levy per capita shows changes in levies relative to changes in population size. As population increases, it might be expected that revenues and the need for services would increase proportionately, and therefore, that the level of per capita revenues would remain at least constant in real terms. However, this is not always the case as the cost of providing services is not directly related to population. If per capita revenues are decreasing, the municipality may be unable to maintain existing service levels unless it finds new revenue sources or ways to reduce costs.

Net Municipal Levy Per Capita

- Net levy on a per capita basis ranged across the municipalities from \$1,077 to \$3,820 (with an average of \$1,661 per capita).
- A review of the net levy per capita, the assessment per capita ranking and the density of the municipality ranking is shown to help understand some of the factors impacting relative taxes, which will be compared later in the report.
- A detailed review of the service envelopes, revenues and socio-demographics of the municipality is required to understand the factors causing differences in levies per capita. Some of the driving factors may include services provided, differentials in terms of service levels and the extent of user fees.

Summary—2020 Net Municipal Levy Comparison per Capita vs. \$100,000 Unweighted Assessment - Location

General Government (Sorted by Net Costs per \$100,000 Assessment, Including Amortization)

General government consists of three categories: governance, corporate management and program support. The costs for governance and corporate management can be influenced by the municipality's organizational structure and method of allocating costs.

Fire

The goal of Fire Services is to protect the life and property of citizens and businesses from fire and other hazards. The three primary fire safety activities provided in communities in support of these objectives are:

- Public education and fire prevention
- Fire safety standards and enforcement
- Emergency response

Each municipality's results are influenced to varying degrees by a number of factors, including:

- The nature and extent of fire risks: The type of building construction, i.e. apartment dwellings vs. single family homes vs. institutions such as hospitals
- Geography: Topography, urban/rural mix, road congestion and fire station locations and travel distances from those stations
- Fire prevention and education efforts: Enforcement of the fire code, and the presence of working smoke alarms
- Collective agreements: Differences in what stage of multi-year agreements municipalities are at and also differences in agreements about how many staff are required on a fire vehicle
- Staffing model: Full-time firefighters or composite (full-time and part-time)

Police

Under the Ontario Police Services Act, municipalities are responsible for the provision of adequate and effective Police services to ensure the safety and security of citizens, businesses and visitors. To fulfill this mandate, each municipality and police agency creates and implements strategies, policies and business models that meet the specific needs and priorities of their local communities.

The key objectives provided by Police Services include:

- Crime prevention
- Law enforcement
- Victims' assistance
- Maintenance of public order
- Emergency response services

Each municipality's results are influenced to varying degrees by a number of factors, including:

- Non-residents: Daily inflow and outflow of commuters and tourists, attendees at cultural, entertainment and sporting events, or seasonal residents (e.g. post-secondary students) who require police services and are not captured in population-based measures
- Specialized facilities: Airports, casinos, etc. that can require additional policing
- Demographic trends: Social and economic changes in the population

Police costs will vary significantly based on a number of factors including, but not limited to:

- Geographic mix (urban/rural mix)
- One-time special events
- Proximity and quantity of higher risk facilities (e.g. correctional, mental health facilities)
- Service levels
- Incident of more complex crimes
- Specialized services (e.g. Emergency Task Force, Emergency Measures, Marine Unit, etc.)
- Accounting and reporting practices

Roads Services

A municipality's transportation system affects the economic vitality and quality of life of its residents. The goal of Roads Services is to provide affordable, well-managed and safe traffic flow for pedestrians, cyclists, drivers, public transit and commercial traffic while contributing to the environment and the quality of community life.

Transportation infrastructure generally includes roads, bridges, culverts, sidewalks, traffic control systems, signage and boulevards. In addition to constructing and repairing infrastructure, roads services include clearing the transportation network of snow and debris to ensure that it is safe and convenient to use.

Single-tier municipalities are responsible for maintaining all types of roads, including arterial, collector and local roads and, in some cases, expressways and laneways. Upper-tier municipalities are not responsible for maintenance of local roads.

Each municipality's results are influenced to varying degrees by a number of factors, including:

- Municipal snow clearing standards, weather conditions, road types and snowfall
- Age and condition of the network
- The proportion of heavy trucks in the traffic stream
- The municipality's pavement standards
- Population density which affects usage and congestion, contributing to road maintenance and its cost
- Type of roads a municipality operates: i.e. arterial, collector or local roads and expressways
- Availability of public transit
- Average commute distances (e.g. from home to work or school)
- Volume of traffic coming from outside the municipality

Transit Services—Conventional

Transit Services provide citizens with a safe, reliable, efficient and affordable means of traveling to work, school, home or play. Greater use of public transit systems in a community eases traffic congestion and improves air quality.

An effective and efficient transit system places emphasis on the following objectives:

- **Quality of life:** Provides mobility options for all residents to ensure access to work, education, health care, shopping, social and recreational opportunities
- **Sustainability:** Needs to be affordable for everyone in the community, be fiscally responsible to taxpayers and support the goal of improving the environment
- **Economic development:** Services and costs need to reflect and encourage residential and commercial growth

Each municipality's results are influenced to varying degrees by a number of factors, including:

- **Size and urban form within the service area:** Service and costs are affected by the type of development, topography and density
- **Demographics and socio-economic factors:** Auto ownership rates, population age, immigrant levels and household incomes will impact transit market share
- **Nature of transit service design and delivery:** Number of routes, proximity and frequency of service, service coverage and hours of operation can vary significantly amongst systems, automated fare systems, Geographic Positioning Systems, traffic signal priority and dedicated bus lanes could be used to facilitate 'express' service
- **Transit system type:** Composition of fleet (bus, subway or light-rail transit (LRT)), diesel vs. natural gas, high floor vs. low floor accessible, and age of fleet
- **Demand for services:** Rising fuel prices, a growing urban population and increased awareness of environmental issues can increase demand; catchment area for transit riders may extend beyond municipal boundaries
- **Economic conditions:** Ridership growth, fare increases, fluctuations in commodity and energy prices, foreign exchange rates, magnitude of external contracting and contractual obligations with labour bargaining units
- **Legislated requirements:** Increased cost due to compliance with the Accessibility for Ontarians with Disabilities Act, 2005 (AODA)

Parking

Parking Services provide parking operations, maintenance and enforcement services for residents, businesses and visitors to the municipality. The goal of Parking services is to ensure that parking is available in an equitable, affordable and safe manner.

Specific objectives of Parking Services are:

- Affordable on-street parking rates, with hours of use conducive to turnover and to the needs of the businesses
- Appropriate off-street parking lots and structures that meet the needs of the community
- A residential off-street parking program that effectively addresses the parking requests and achieves an equitable balance of the limited space requirements in defined areas of municipalities
- Enforcement of parking by-laws to ensure safety for the community

Each municipality's results are influenced to varying degrees by a number of factors, including:

- Service delivery standards and by-laws: Vary considerably from one municipality to another, i.e. mix of on-street and off-street parking spaces, municipal staff vs. contracted attendants, use of variable-rate pricing structures, availability of public transit and proximity to parking alternatives (free public parking, private lots)
- Technology: The type and quality of technology used to manage operations and enforcement, i.e. handheld devices vs. written, ticket management systems, meters vs. pay and display machines, level of automation at parking surface lots vs. parking garage structures

Waste Management

Waste Management Services includes a wide range of collection, disposal, diversion and processing activities for the majority of residential households, and a portion of these services may be provided to businesses. The goal of Waste Management Services is to reduce and/or divert the amount of waste ending up in landfill sites, and to lessen the detrimental impact on the environment.

Each municipality's waste collection results are influenced to varying degrees by a number of factors, including:

- Governance: Single-tier vs. upper-tier systems
- Program design: Based on urban/rural mix of single-family homes, multi-unit residential buildings, commercial, industrial, seasonal homes and tourists, age of infrastructure, proximity to collection sites, processing sites and sellable markets
- Service levels: Frequency of collection, bag limits, single stream waste collection vs. co-collection programs, hours of operations and the number and types of materials collected
- Education: How municipalities promote, manage and enforce their garbage collection, disposal, recycling and diversion programs and services

Waste disposal can be influenced by the following factors:

- Disposal method (landfill, incineration, export, etc.)
- Presence of competitive market forces
- Landfill hours of operation
- Haulage distance to landfill site
- Success of waste diversion activities
- Number of former landfill sites under perpetual care

Ambulance Services

(Sorted by Net Costs per \$100,000 Assessment, Excluding Amortization)

Ambulance provides emergency care to stabilize a patient’s condition, initiates rapid transport to hospital and facilitates both emergency and non-emergency transfers between medical facilities. Factors that affect Ambulance Services costs:

- Geographic coverage/population density
- Local demographics
- Level of certification
- Specialized services

General Assistance

(Sorted by Net Costs per \$100,000 Assessment, Excluding Amortization)

Each municipality's results are influenced to varying degrees by a number of factors, including:

- **Employability:** Significant numbers of clients with one or more barriers to employment, including health barriers, lack of education and language skills, literacy levels, and lack of Canadian work experience
- **Urban form:** Client access to programs can vary due to geographical, technological, cultural or other limitations
- **Economic conditions:** Differing local labour market conditions
- **Demographics:** Family size and caseload mix

Assistance to the Aged

Some municipalities provide community programs (for example, adult day services, homemakers and meals on wheels). which provide support to clients and family caregivers. These services enable many clients to remain independent in their own homes.

Each municipality's results are influenced to varying degrees by a number of factors, including:

- Staff mix: Ratio of registered and non-registered staff varies amongst municipalities, resulting in a higher cost structure for registered staff
- Support and type of programming provided as determined by Council
- Role of Local Health Integration Networks (LHINs): Establishing the mix of health services for a given community
- Demographics: Age of the population and specific needs of the client
- Uncontrollable price variables: Pay equity legislation and wage arbitration, availability of appropriate skilled workers
- Other providers: Charitable and private sector participation in the long-term care business

Child Care (Sorted by Net Costs per \$100,000 Assessment, Excluding Amortization)

Each municipality's results are influenced to varying degrees by a number of factors, including:

- Varying levels of child poverty in municipalities result in differing needs for subsidized child care
- Costs to provide child care can be impacted by economic variables such as the cost of living in the municipality and the income levels of the residents
- Rates for child care spaces, other than those directly operated by a municipality, are set in service agreements between the municipality and the child care providers; these rates can be influenced by the level of funding available, local wage conditions, pay equity legislation, municipal policies and business practices

Social Housing

Social Housing Services provides affordable homes for individuals whose income makes it challenging to obtain adequate housing in the private rental market. A variety of housing forms are provided as follows:

- Municipally owned and operated housing (through a department or municipally owned housing corporation)
- Non-profit housing that is owned and operated by community based non-profit corporations governed by a board of directors
- Cooperative housing that is owned and operated by its members
- Rent supplement, where a private or non-profit landlord provides units to households at a rent-g geared-to-income (RGI) and the municipality subsidizes the difference between that rent and the market rent for the unit

Each municipality's results are influenced to varying degrees by a number of factors, including:

- Housing stock: Age and supply (both private and municipal), and adequacy of capital reserves to maintain them
- Demographic and economic conditions: May increase waiting list pressure, i.e. loss of local industry, rapid growth, percentage of Special Priority Policy (SPP) applicants
- Wait list management: Frequency of the service manager to update the waiting list and cancel applicants no longer actively seeking rent-g geared-to-income (RGI) housing
- Portfolio mix: Older federal units are generally less costly than units built under subsequent provincial programs (fewer assisted units, lower land costs)
- Geographic conditions: Construction and land costs, higher snow removal costs in northern areas of the province, rental market availability, utility costs and usage profiles
- Tenant mix: Seniors' communities are usually less costly to operate than families and singles

Parks

Each municipality's results are influenced to varying degrees by a number of factors including:

- Service delivery: Differences in service standards established by municipal Councils, i.e. types of amenities maintained, frequency of grass cutting
- Geographic location: Varying topography affects the mix of natural and maintained hectares of parkland in each municipality
- Environmental factors: Soil composition, weather patterns
- Population density: Higher densities may mean more intense usage and require different maintenance strategies, e.g. irrigation, artificial turf, sport field and pathway lighting
- Changing demographics and community use: Increased demand for large social gatherings and various cultural activities translate into higher maintenance, signage and staff training costs

Sports and Recreation Services

The three main types of programming are:

- Registered programs: Residents register/commit to participate in structured activities such as swimming lessons, dance or fitness classes or day camps; some municipalities also include house leagues, e.g. baseball, basketball, hockey, soccer
- Drop-in programs: Residents are not required to register and are able to participate in structured or unstructured sports and recreation activities such as public swimming or skating, basketball, fitness or open access to gyms
- Permitted programs: Residents and/or community organizations obtain permits for short-term rental of sports and recreation facilities such as sports fields, meeting rooms and arenas

Each municipality's results are influenced to varying degrees by a number of factors, including:

- Recreation facilities: Number of facilities, mix of facility types and age of facilities
- Programming: Variety of recreation program types offered, number and extent of age groups with targeted programming; frequency and times of program offerings; class length; mix of instructional vs. drop-in vs. permitted programming
- Transportation: Access and the number of program locations
- Collective agreements: Differences in wage rates and staffing structures

Library

Each municipality's results are influenced to varying degrees by a number of factors including:

- Access: Number and size of branches and hours of operation mean municipalities with lower population densities may require more library branches and more service hours to provide services to residents within a reasonable distance
- Collections: Size and mix, as well as number of languages supported
- Library use: Mix, variety and depth of library uses and the varying amount of staff resources
- Demographics: Socio-economic and cultural make-up of the population served

Planning

Each municipality's results are influenced to varying degrees by a number of factors, including:

- **Municipal governance:** Single-tier vs. upper or two-tier; the review process can be impacted by the requirement for a dual role; some types of applications are not processed by upper-tier governments
- **Organization structure:** Differing models can affect both the application review process, i.e. departments outside of Planning, and the number of activities beyond application processing including growth management
- **Public consultation:** Costs to process an application can be impacted by local Council decisions regarding opportunities for public input to the planning process
- **Application variables:** Type, mix, and complexity (in terms of scope and magnitude) of applications received

Select User Fees and Revenue Information

User Fees

Analyzing the revenue structure will help to identify the following types of problems:

- Deterioration of revenue base
- Practices and policies that may adversely affect revenue yields
- Poor revenue-estimating practices
- Efficiency of the collection and administration of revenues
- Overdependence on intergovernmental revenue sources
- User fees that are not covering the cost of services
- Changes in the tax burden on various segments of the population

This section includes:

- *Development Charges*
- *Building Permit Fees*
- *Commercial Solid Waste Tipping Fees*
- *Transit Fares*
- *Stormwater Utility Rates and Practices*

Fees are addressed in Part XII, section 391 of the Municipal Act. The Act states that a municipality may pass by-laws imposing fees or charges on any class of persons:

- For services or activities provided or done by, or on behalf of, this class of persons;
- For costs payable by it for services or activities provided or done by, or on behalf of, any other municipality;
- For the use of its property including property under its control; and
- For capital costs payable by it for wastewater and water services or activities which will be provided, or done on behalf of it, after the fees or charges are imposed.

Development Charges

The recovery of costs by Ontario municipalities for capital infrastructure required to support new growth is governed by the *Development Charges Act (1997)* and supporting regulations.

To determine a development charge, a municipality must first do a background study. The background study provides a detailed overview of a municipality's anticipated growth, both residential and non-residential; the services needed to meet the demands of growth; and a detailed account of the capital costs for each infrastructure project needed to support the growth. The growth-related capital costs identified in the study are then subject to deductions and adjustments required by the legislation. They include:

- Identifying services ineligible for a development charge
- Requiring a service level cap tied to a ten-year historical average
- Reducing capital costs by the amount of growth-related infrastructure that benefits existing development
- Reducing capital costs by an amount that reflects any excess capacity for a particular service
- Reducing capital costs by adjusting for grants, subsidies or other contributions
- Reducing capital costs for soft services (e.g. parkland development, libraries) by 10 per cent

Under the current **Development Charges Act, 1997**, municipalities may apply development charges in ways that best suit their local growth-related needs and priorities. A number of municipalities use reductions or exemptions of development charges as an incentive for directing land development and building to areas such as downtown cores, industrial and commercial areas and to transit nodes and corridors, where higher-density growth is desired.

Municipalities may also calculate area-related development charges based on the direct infrastructure costs related to growth within a catchment area. Frequently, area-related charges are established to differentiate between existing serviced areas and greenfield lands requiring a major investment in infrastructure.

Comparison of Development Charges

In comparing development charges, you cannot always directly compare the DC rates of municipalities as "apples to apples". Every municipality individually determines what services will be recovered from DCs. While there are many services that are commonly included as DC rate components, (e.g. wastewater treatment, water, roads, etc.), some municipalities may choose to fund growth-related capital costs through tax-supported sources. The range of services included in DC rates can have a significant impact on the amount of the charge.

**Summary—2020 Development Charges Residential Single Detached Dwelling
Average By Location**

As shown above, there is a significant range in the development charges by geographic location, with the average in the GTA over double that of the other geographic locations. The table below reflects the average by location for each of the development charges.

2020 Development Charges	Residential	Multiples Dwelling 3+ bed. per unit	Apartment units >=2	Apartment units < 2 per unit	Non Residential Commercial per sq. ft.	Non Residential Industrial per sq. ft.
North	\$ 18,235	\$ 10,524	\$ 10,524	\$ 10,524	\$ 4.43	\$ 3.05
Eastern	\$ 14,004	\$ 10,541	\$ 8,754	\$ 6,535	\$ 9.52	\$ 5.57
Southwest	\$ 23,063	\$ 17,081	\$ 13,780	\$ 11,618	\$ 9.36	\$ 7.03

Building Permit Fees

Bill 124, the *Building Code Statute Amendment Act*, 2002 was given Royal assent on June 27, 2002 and subsequently amended the *Building Code Act*, 1992 as it relates to imposing fees. As such, municipalities across Ontario review and update their fees to ensure compliance with the Act. With respect to establishing fees under the *Building Code Act*, Section 7 of the Act provides municipalities with general powers to impose fees through passage of a by-law. The Council of a municipality may pass by-laws:

- Requiring the payment of fees on applications for issuance of permits and for prescribing the amounts thereof
- Providing for refunds of fees under such circumstances as are prescribed

The *Building Code Statute Law Amendment Act*, 2002 imposed additional requirements on municipalities in establishing fees under the Act, in that “The total amount of the fees authorized under clause (1)(c) must not exceed the anticipated reasonable cost of the principal authority to administer and enforce this Act in its area of jurisdiction.”

In addition, the amendments also require municipalities to:

- Reduce fees to reflect the portion of service performed by a Registered Code Agency
- Prepare and make available to the public annual reports with respect to the fees imposed under the Act and associated costs
- Undertake a public process, including notice and public meeting requirements, when a change in the fees is proposed

O. Reg. 305/03 is the associated regulation arising from the *Building Code Statute Law Amendment Act*, 2002. The regulation provides details on the contents of the annual report and the public requirements for the imposition or change in fees. Section 11.2 of Bill 124 restricts the use of building permit revenues to recover only the “reasonable anticipated costs” of activities mandated by the *Building Code Act*.

BMA Calculations

Assessed value of a house was \$270,000 with 167 m² living space.

Stormwater Utility

Most municipalities are facing increasing infrastructure backlogs, funding gaps, and increasing financial pressures in infrastructure management. These challenges have been driven by several trends over the last decade, including:

- Aging infrastructure that create large needs for capital replacement, renewal, and rehabilitation;
- Environmental and public health issues, which demand new investments for higher service levels;
- Limited ability to raise funds from property taxes, due to resistance to increases in property taxes;
- Resulting competition for resources (tax revenues), from other municipal responsibilities; and
- More rigorous regulatory and design standards for water, wastewater and storm operations.

Historically, in most Ontario municipalities stormwater management has been financed with general revenue from property taxes or water/wastewater rates. The trend experienced over the past decade in Canada is to move stormwater management to a separate utility. A separate utility funding model for stormwater management provides the following benefits, as identified in research undertaken across Canada:

- Costs are isolated from the municipality's other operations and generally allow a municipality the ability to budget programs and projects based on a realistic and dependable revenue stream;
- Dedicated or earmarked funding helps ensure that funds are available when needed;
- Costs and benefits can be more equitably distributed using a utility rate structure; and
- Applicable for use on a municipal-wide basis and across all land use types

Stormwater Utility

There are a number of Ontario municipalities that recover stormwater management costs from a stormwater utility rate. The following provides a summary of the municipalities that have a stormwater utility rate.

Municipality	Type of Structure
Aurora	Flat monthly rates; residential and non-residential (including multi-residential)
Guelph	Flat monthly rate for residential, multi-residential/condos pay a flat rate of residential for each unit, non-residential based on the Equivalent Residential Unit (ERU). ERU is 188 m ²
Kitchener	16 flat monthly rates based on size of property and impervious area
London	Flat monthly rates for properties under 0.4 hectares; per hectare rate for larger properties
Markham	Flat residential monthly rate and cost per CVA for non-residential properties
Middlesex Centre	Flat monthly rates for properties under 0.4 hectares; per hectare rate for larger properties
Mississauga	Flat rates based on residential billing unit equivalents. There are 5 residential rates. Multi-residential and non-residential is based on the total hard surface area divided by a single ERU of 267 m ² multiplied by the stormwater rate.
Newmarket	Based on the size of the property times runoff group rate. Three categories Low, Medium, High (Low—vacant properties, golf course, natural areas; Medium—residential and institutional; High—Commercial, industrial and mixed use).
Ottawa	Annual Stormwater Service Fees for Urban Single/Semi
Richmond Hill	Flat monthly rates (2); residential/farmland and non-residential
St. Thomas	Flat monthly rates for all properties except ICI which is on a per hectare basis greater than 1,800 m ²
Vaughan	3 flat residential rates—Low, Medium, High; Agricultural/Vacant rate and 4 Non-Residential rates based on acreage
Waterloo	12 flat monthly rates; Low, Medium and High for Residential, Multi-Residential, Institutional, Industrial/Commercial

Stormwater Utility—Residential Comparison

The following reflects the annual residential cost of stormwater for a residential medium density home in 2020.

	2020 Annual Storm Residential Medium
Vaughan	\$ 33
Newmarket	\$ 38
Markham	\$ 50
Guelph	\$ 70
Richmond Hill	\$ 74
Aurora	\$ 85
Mississauga	\$ 108
Ottawa	\$ 128
St. Thomas	\$ 132
Kitchener	\$ 137
Waterloo	\$ 153
Middlesex Centre	\$ 184
London	\$ 201
Average	\$ 107

Tax Policies

Tax Policies

The relative tax burden in each class of property will be impacted by the type of tax policies implemented in each municipality. As such, an analysis of the 2020 tax policies that impact the relative tax position was completed and has been summarized to include the following:

- **Comparison of Tax Ratios**
- **Delegation**
- **Summary of Optional Classes**

Comparison of Tax Ratios

Tax ratios reflect how a property class' tax rate compares to the residential rate. Changes in tax ratios affect the relative tax burden between classes of properties. Tax ratios can be used to prevent large shifts of the tax burden caused by relative changes in assessment among property classes as well as to lower the tax rates on a particular class or classes.

Delegation

The Municipal Act allows upper-tier municipalities to delegate the responsibility of setting tax ratios to its lower-tier municipalities, rather than setting region-wide tax rates for the upper-tier's share of the property tax burden. Upper-tier municipalities that choose to delegate this authority must develop an apportionment methodology to determine the amount of the upper-tier levy that each of the lower-tier municipalities would be required to raise. Delegation requires unanimous lower-tier agreement as well as approval from the Minister of Finance.

The Region of Peel has delegated its authority to set tax ratios to its lower-tier municipalities since 1998. It is currently the only upper-tier municipality in Ontario delegating its authority to its lower-tier municipalities.

Summary of Optional Property Classes

In addition to the core property classes, the Minister of Finance established eight additional optional classes in the *Assessment Act*. The advantage of creating an optional class is that it provides additional flexibility to tax properties within these classes at a different rate compared to the broader class. Municipalities have the option of establishing any of the optional property classes allowed in the legislation. Optional Classes include:

- New Multi-residential
- Shopping Centres
- Office Buildings
- Parking Lots
- Large Industrial

Bill 70, Building Ontario Up for Everyone Act, 2016

In November 2016, the Minister of Finance introduced Bill 70 aiming to implement certain budget measures and clarifying a number of laws and regulations. The bill received Royal Assent on December 8, 2016. The key areas of the amendments that impact the 2017 tax policies are:

- ***Multi-Residential Property Tax Mitigation*** – a levy restriction for multi-residential properties in 2017 where the multi-residential tax ratio is greater than 2.0. The province filed Ontario Regulation No. 62-17 and No. 65-17 on March 9, 2017 to implement in 2017 a full levy restriction for Multi-residential properties where the Multi-residential tax ratio is greater than 2.0.
- ***Landfills Assessment Review*** – implementation of the Landfills Assessment Review recommendations, including establishing a new landfill property class and setting a tax ratio in 2017 based on a transition ratio set by the Province.
- ***Property Tax Rate Calculation Adjustment*** – Option to adjust the provincially prescribed notional property tax rate calculation for in-year property assessment changes such as assessment appeal losses.
- ***Business Property Tax Capping*** – increased flexibility to accelerate progress to CVA level taxes.
- ***Vacancy Rebate and Reduction Programs*** – flexibility to tailor the programs for the Vacant Unit Rebate and Vacant/Excess Land Subclasses.

Provincial Ranges of Fairness

The “Ranges of Fairness” represent what the Province determines is a fair level of taxation for various types of properties relative to the tax burden on the residential class. These ranges ensure that taxes are not shifted onto properties that are already subject to high/low tax rates. Municipalities can leave their tax ratios at their current level or elect to move towards the ranges of fairness. The following table summarizes the Provincially Legislated Ranges of Fairness

	Range of Fairness
Residential	1.00
Multi-Residential	1.00-1.10
New Multi-Residential	1.00-1.10
Commercial	0.60-1.10
Industrial	0.60-1.10
Pipelines	0.60-0.70
Farmlands	0-0.25
Managed Forests	0.25

Comparison of Relative Taxes

Comparison of Relative Taxes

The purpose of this section of the report is to undertake “like” property comparisons across each municipality and across various property types. In total, 12 property types were defined based on those property types that were of most interest to the participating municipalities and that represented all potential optional classes. The Residential, Multi-Residential, Commercial, and Industrial classes are represented in the study.

The relative taxes are calculated by taking current value assessment of the sample properties in this section of the report and applying the total property tax rates for each classification of property. This uses the current reassessment based on property values as of January 1, 2016, and the phase-in cycle applies to the 2020 taxation years in this report.

Current Value Assessment is defined as the amount of money a property would realize if sold at arm’s length (by a willing seller to a willing buyer with no relationship to each other). To calculate a property’s assessed value, MPAC analyzes market information from similar types of property in the vicinity

While all properties are evaluated using current value assessment, there are three methods used for this analysis:

- the selling price of a property (residential)
- the rental income a property generates (office building)
- the cost to replace a property (industrial)

Each method takes into consideration the location of a property, the size and quality of any buildings and features which might enhance or reduce a property’s value.

Comparison of Relative Taxes

In order to calculate the relative tax burden of “like” properties, every effort was made to select a sample of properties within each municipality for each property to hold constant those factors deemed to be most critical in determining a property’s assessed value using property descriptions as outlined on the next page. However, given the number of factors used to calculate the assessed value for each property, and the inability to quantify each of these factors, the results should be used to provide the reader with **overall trends** rather than exact differences in relative tax burdens between municipalities. By selecting multiple property types within each taxing class (Residential, Multi-Residential, Commercial, and Industrial), and by selecting multiple properties from within each municipality and property subtype, where available, the likelihood of anomalies in the database has been reduced. However, it is recommended that focus should be on the trends rather than the absolutes.

There are many reasons for differences in relative tax burdens across municipalities and across property classes. These include, but are not limited, to the following:

- The values of like properties vary significantly across municipalities
- The tax burden on the different property classes within a municipality varies based on the tax ratios
- The use of optional property classes
- Non-uniform education tax rates in the non-residential classes
- The level of service provided and the associated costs of providing these services
- Access to other sources of revenues such as dividends from hydro utilities, gaming and casino revenues, user fees, etc.

Notes

Urban rates were used in each municipality where there is area rating. The City of Toronto, due to the size and current value assessment differentials across the City, has been divided into four areas; North, South, East and West. For some property types, municipalities are not represented due to the lack of comparable properties available or a decision by the municipality not to include a particular category in the analysis.

Description of Comparable Properties Used in the Analysis

- **Residential - Single Family Detached Home** - A detached three-bedroom single storey home with 1.5 bathrooms and a one car garage. Total area of the house is approximately 1,200 sq. ft. and the property is situated on a lot that is approximately 5,500 sq. ft. In smaller more rural municipalities it was sometimes necessary to use larger lot sizes. Comparison of taxes on a per household basis.
- **Residential—2 Storey** - A two storey, three bedroom home with 2.5 bathrooms, two car garage. Total area of the house is approximately 2,000 sq. ft. on a lot approximately 4,000—5,000 sq. ft. Comparison of taxes on a per household basis.
- **Residential – Senior Executive** - A two-storey, four or five bedroom home with three bathrooms, main floor family room plus atrium or library. A full unfinished basement and an attached two car garage. The house is approximately 3,000 sq. ft., with an approximate lot size of 6,700 sq. ft. Comparison of taxes on a per household basis.
- **Multi-Residential - Walk-up Apartment** - Multi-residential, more than six self-contained units but does not include row housing. Typically this type of property is older construction, two to four storeys high. Comparison of taxes on a per unit basis.
- **Multi-Residential - Mid/High-Rise Apartment** - Multi-residential, more than six self-contained units and four + storeys but does not include row housing. Comparison of taxes on a per unit basis.
- **Commercial - Neighbourhood Shopping Centre** - A neighbourhood shopping centre is typically the smallest type of center comprised of retail tenants that cater to everyday needs such as drugstores, convenience stores and hardware stores. Size varies from 4,000 to 100,000 square feet. Comparison of taxes on a per square foot of floor area.
- **Commercial - Office Building Class** - Selection was focused on buildings in prime locations within the municipality. Comparison of taxes on a per square foot of gross leasable area basis.
- **Commercial - Hotel** - Typically over 100 rooms. Comparison of taxes on a per suite basis.
- **Commercial - Motel** - Typically newer construction, franchised. Comparison of taxes on a per suite basis.
- **Industrial - Vacant Land** - Selection of properties were based on serviced land under 5 acres. Comparison of taxes on a per acre basis.
- **Industrial - Large Industrial** - Greater than 125,000 sq. ft. Comparison of taxes on a per square foot of floor area basis.
- **Industrial - Standard Industrial** - Under 125,000 sq. ft. in size typically characterized by newer construction and flexible design. Comparison of taxes on a per square foot of floor area basis.

Water/Wastewater

Water and Wastewater Financial Information and Analysis

This section of the report includes the following financial information and analysis:

- ***Water and Wastewater Rate Structure Overview***
 - ***Comparison of Residential Water/WW Fixed Costs as a % of Total Annual Water/WW Costs***
 - ***Comparison of Frequency of Billing***
 - ***Comparison of Water versus Wastewater Revenues***
 - ***Comparison of Type of Rate Structure***
 - ***Comparison of Water/Wastewater Costs***
- ***Water/Wastewater as a % of Average Household Income***
- ***Storm Utilities (NEW)***
- ***Financial Indicators***
 - ***Water/WW Asset Consumption Ratio***
 - ***Water/WW Reserves as a % of Own Source Revenues***
 - ***Water/WW Reserves as a % of Accumulated Amortization***
 - ***Water/WW Debt Interest Cover Ratio***
 - ***Water/WW Net Financial Liabilities Ratio***

Water and Wastewater Rate Structure

The establishment of water and wastewater rates is a municipal responsibility and the absence of standard procedures across Ontario has resulted in the evolution of a great variety of rate structure formats. It is important that rates be based on sound policies and principles and that they are defensible by staff and Council. There are recognized processes to be followed in undertaking water/wastewater rate studies, published by various industry leaders including the American and Canadian Waterworks Association (AWWA and CWWA). Municipalities, however, are limited in their options based on the availability of information to calculate class rate structures.

BMA has undertaken water and wastewater rate studies on behalf of numerous municipalities. During these studies, our findings are consistent with that of the CWWA which states that, despite industry trends in rate setting, there is, and always will be, a lot of variation in rate setting practices given that there is no single rate setting approach or rate structure. Municipalities have different objectives in setting rates including, but not limited to:

- | | |
|---|--|
| <ul style="list-style-type: none"> • Conservation • Revenue Stability • Fairness • Economic Development | <ul style="list-style-type: none"> • Financial Sufficiency • Rate Stability • Ease of Implementation • Ease of Understanding |
|---|--|

The process typically followed by municipalities in setting water and wastewater rates is to:

- Identify Evaluation Criteria/Objectives
- Identify Revenue Requirements for each Service
- Allocate Costs—Capital, Operating & Maintenance
- Calculate Unit Costs—Allocate Fixed and Volumetric Costs
- Design the Rate Structure—Inclining, Declining, Uniform, # of Blocks, etc.
- Assess the Effectiveness in meeting the Objectives
- Assess the Impact on Various Classes and Types of Users

Fixed Costs

As stated by the CWWA, at the heart of the methodology for setting water rates is the concept of a two-part rate structure; a volumetric charge and a fixed charge. Municipalities must determine whether to separately charge a fixed cost to its customers and to determine the types of costs that are to be recovered from a monthly charge. These decisions are made, as well, based on the overall objectives of the municipality. For example, a high allocation to the fixed charge is generally not practical since it results in a volumetric charge that is too low relative to the fixed charge. This is not recommended if water efficiency is an important objective in rate setting. While a high allocation of capital costs to volume will promote water efficiency, there is increased revenue risk brought about by the increased reliance on the volumetric charge to recover fixed costs.

The table on the next page summarizes the allocation of costs that are being recovered from a fixed monthly charge across the survey using a Residential customer consuming 200 m³. It should be noted that the percentage of fixed will vary within a municipality depending on the amount of water consumed and the type of customer. This example provides the allocation on a typical Residential customer for comparative purposes.

- 98 of the 108 municipalities, charge a monthly fixed charge to their customers to recover customer related costs.
- The extent to which fixed monthly charges as a percentage of the total residential bill varies from a low of 0% to a high of 100%.

Volumetric Rate Structure

There are a number of different rate structures used by municipalities. The following summarizes the most common types of rate structures:

- Uniform Rate Structure (U in the table in the next several pages)—The most common rate structure is the uniform rate for water and wastewater services. A uniform rate structure means that the price per unit remains constant despite consumption and despite the class of user. The cost is calculated by dividing the total cost of the service by the total volume used by customers.
- Declining (Regressive) Block Rate Structure (D in the table in the next several pages) —In a declining block rate structure, the unit price of water decreases as the volume consumed increases. This structure charges low volume users the highest rate, which is often residential consumers. Declining rate structures are the second most common type of rate structure.
- Inclining (Progressive) Rate Structure (I in the table in the next several pages) —The main objective of an increasing block structure is to encourage conservation. The rates in an inclining (progressive) rate structure increase as consumption increases by establishing thresholds or blocks at which the rate would change. For inclining block rate structures, the block (quantity) shift points are generally based upon the unique demand characteristics of each user class and are focused on user demand points to enhance water usage awareness. Customer awareness, combined with price incentives, are critical elements in modifying consumption behavior.
- Humpback Rate Structure (H in the table in the next several pages) —A humpback rate structure uses a combination of increasing and decreasing block rates: rates first increase, then decrease in steps as consumption increases. This approach targets high volume users, and then provides lower cost for very high volume users.

The next several pages summarize the type of rate structure employed in each municipality. Four columns have been included as some municipalities employ a different type of rate structure for Residential and Non-Residential properties and also for water and wastewater services. The following table summarizes the results:

Municipality	Water Residential	Water Non-Res.	WW Residential	WW Non-Res.
Uniform	71%	74%	72%	74%
Declining	8%	12%	9%	11%
Inclining	10%	6%	9%	7%
Humpback	6%	6%	8%	8%
Flat	4%	1%	3%	0%
Total	100%	100%	100%	100%

Water and Wastewater Financial Indicators

Ontario municipalities that are responsible for the provision of drinking water are required to meet the requirements set out in the Financial Plans Regulations O.Reg.453/07. Ontario Reg. 453/07 provides the following parameters with regards to s.30 (1) part b of the SDWA for new water systems:

- Financial plan must be approved by Council resolution (or governing body) indicating that the drinking water system is financially viable;
- Financial plan must include a statement that the financial impacts have been considered and apply for a minimum six year period (commencing when the system first serves the public);
- Financial plan must include detail regarding proposed or projected financial operations itemized by total revenues, total expenses, annual surplus/deficit and accumulated surplus/deficit (i.e. the components of a “Statement of Operations” as per PSAB) for each year in which the financial plans apply;
- Financial plans are to be made available to the public upon request and at no charge;
- If a website is maintained, financial plans are to be made available to the public through publication on the Internet at no charge; and
- Notice of the availability of the financial plans is to be given to the public.

The Ministry of the Environment released a guideline (“Towards Financially Sustainable Drinking-Water and Wastewater Systems”) that provides possible approaches to achieving sustainability. The Province’s Principles of Financially Sustainable Water and Wastewater Services are provided below:

- **Principle #1:** Ongoing public engagement and transparency can build support for, and confidence in, financial plans and the system(s) to which they relate.
- **Principle #2:** An integrated approach to planning among water, wastewater, and storm water systems is desirable given the inherent relationship among these services.
- **Principle #3:** Revenues collected for the provision of water and wastewater services should ultimately be used to meet the needs of those services.
- **Principle #4:** Life-cycle planning with mid-course corrections is preferable to planning over the short-term, or not planning at all.
- **Principle #5:** An asset management plan is a key input to the development of a financial plan.
- **Principle #6:** A sustainable level of revenue allows for reliable service that meets or exceeds environmental protection standards, while providing sufficient resources for future rehabilitation and replacement needs.

- **Principle #7:** Ensuring users pay for the services they are provided leads to equitable outcomes and can improve conservation. In general, metering and the use of rates can help ensure users pay for services received.
- **Principle #8:** Financial Plans are “living” documents that require continuous improvement. Comparing the accuracy of financial projections with actual results can lead to improved planning in the future.
- **Principle #9:** Financial plans benefit from the close collaboration of various groups, including engineers, accountants, auditors, utility staff, and municipal council.

Monitoring of the financial indicators guide planning and decision making will help ensure that:

- Assets are protected and maintained
- Rates are stable and predictable
- There is a fair sharing in the distribution of future and current ratepayers
- There are sustainable cash flows
- There is financial flexibility
- Financial vulnerability is minimized

Past financial performance should be assessed relative to the financial indicators. This will reveal any areas of a municipality’s financial strategies that require particular focus in order to secure ongoing financial sustainability.

Asset Consumption Ratio

This ratio shows the value of the tangible capital assets that have been consumed. This ratio seeks to highlight the aged condition of the assets and the potential asset replacement needs. A higher ratio may indicate significant replacement needs. However, if assets are renewed and replaced in accordance with an asset management plan a high ratio should not be a cause for concern. The Ministry of Municipal Affairs and Housing considers a ratio of 25% or under to be relatively new; 26%-50% to be moderately new; 51%-75% to be moderately old and over 75% to be old.

Water Debt Interest Cover Ratio

This ratio indicates the extent to which rate revenues are committed to interest expenses and is calculated as Debt Interest as a percentage of water revenues. It is important to monitor this trend to help ensure that debt interest does not overly reduce flexibility.

Water Net Financial Liabilities Ratio

Net Financial Ratio is debt principal outstanding minus reserves as a percentage of operating revenue. This Ratio indicates the extent to which financial liabilities could be met by its operating revenue. Where this ratio is falling it indicates that the municipality’s capacity to meet its financial obligations from operating revenue is strengthening. An increase in the net financial liabilities ratio means that a municipality is incurring higher net operating costs (e.g. as a result of additional maintenance and amortization costs associated with acquiring new assets). There is no optimal number or range for this indicator. What is important is that a municipality understands and is comfortable with the ratio that has been determined based on future needs and long term financial sustainability.

Average Municipal Burden as a % of Income

Taxes and Water and Wastewater Costs as a Percentage of Income

A comparison was made earlier in the report of relative property tax burdens and water/wastewater costs on comparable properties. This section of the report provides a comparison of the allocation of gross income to fund municipal services on a typical household in each municipality.

The approach used to calculate taxes as a percentage of income was to compare the average income in a municipality from the 2020 Manifold Data Mining report against the tax burden on a typical home in the municipality using weighted median dwelling values and applying the 2020 residential tax rates for each municipality.

A comparison was also made with the inclusion of water and wastewater costs on a typical Residential property. This assumed an average annual consumption of 200 m³.

Economic Development Programs

Economic Development Programs

Many communities are struggling to maintain a competitive advantage in a rapidly changing global economy. There are many forms of economic development programs used across Ontario to encourage growth. Programs to promote economic development include, but are not limited to:

- Grants
- Interest Free Loans
- Tax Incremental Financing
- Corporate Visitation Programs
- Ambassador Programs
- Refund/waiving of fees
- Business Enterprise Centres
- Municipal land assembly
- Brownfield programs
- Downtown programs
- Heritage restoration programs
- Developing networks and business directories
- Developing newsletters

These activities are directly linked to the long term ability of communities to foster new public and private investment, create employment opportunities, increase income levels and reduce poverty.

The report focuses on the following key areas of economic development programs.

- ***Business Retention & Expansion Programs***
- ***Downtown/Area Specific Programs***
- ***Brownfield Redevelopment***

Legislation

Ontario Legislation

The following section provides an overview of various Ontario legislation related to financial assistance and other financial incentives that may be used to encourage development and redevelopment in municipalities. This information has been taken from excerpts from a Ministry of Municipal Affairs and Housing document “Municipal Financial Tools for Planning and Development”.

Municipal Act

The Municipal Act (subsection 111(1)) prohibits municipalities from directly or indirectly assisting any manufacturing business or other industrial or commercial enterprise through the granting of bonuses. Notwithstanding the bonusing rule, subsection 111 (2) of the Municipal Act permits, with the Ministry of Municipal Affairs approval, certain financial assistance for the purpose of implementing a community improvement plan that has been adopted under the provision of Section 28 of the Planning Act.

Planning Act

Section 28 of the Planning Act sets out the authority for municipalities to designate community improvement project areas and adopt community improvement plans. This is done through a legal process involving public notice, a public meeting and the right of appeal. Once approved by the Ministry of Municipal Affairs and Housing, a community improvement plan can provide municipalities with broad powers to acquire, hold, clear, lease and sell land in designated areas for the purposes of community improvement.

Once a municipality has approved community improvement policies and designated a community improvement project area, it may use the powers afforded through subsection 28(7) to issue grants or loans to registered or assessed owners of lands and buildings within the designated areas.

Ontario Heritage Act

Section 39 of the Ontario Heritage Act allows municipalities to make grants or loans to owners of heritage designated properties. These grants or loans are to pay for all, or part of, the cost of alteration of the designated property, on terms and conditions established by municipal council.

Development Charges Act

The *Development Charges Act, 1997* provides the legal basis for Ontario municipalities to impose growth-related development charges in order to recover some or all of the capital costs of new municipal infrastructure requirements resulting from new development. The services eligible to be funded from this source include transportation (roads and transit), sewer, water and other services that must be provided to serve residential and non-residential growth.

Paragraph 10 of subsection 5(1) of the *Development Charges Act, 1997* permits municipalities to give full or partial exemption for some types of development.

In the interest of economic competitiveness and job creation or preservation, many Ontario municipalities have chosen to use this section to wholly or partially exempt new industrial development and larger expansions of existing industrial buildings from the imposition of local development charges.

Under subsection 2(7) of the *Development Charges Act, 1997*, municipalities may exempt areas of the municipality from the application of a development charges bylaw. Such areas could include a downtown or development area, including community improvement project areas under the *Planning Act*. Municipalities may also adopt area by-laws not including a specific area.

Bill 56—Brownfield Statute Amendment Act

Brownfields are defined by the Province as derelict, dysfunctional or under-used industrial and commercial facilities where expansion or redevelopment is complicated by real or perceived contamination. Despite the complexity of developing these properties, they are often in desirable and strategic locations. Redeveloping brownfields means transforming environmentally challenged properties into productive properties. Brownfields are lands on which industrial or commercial activity took place in the past. They may be vacant, underused or abandoned. Brownfields are usually located in strategic areas of the community, with existing transportation, infrastructure and facilities and close to or in the downtown core.

The Act removes the main barriers to brownfield cleanup and redevelopment. It sets out clear rules for the cleanup of contaminated brownfield sites to ensure that environmental liability standards are met and public health protected. It would limit future environmental liability for municipalities, developers and owners of brownfield properties. In addition, it streamlines the planning process to expedite brownfield projects and help municipalities provide financial support for brownfield clean up costs.

Section 365.1 of the Municipal Act allows municipalities to adopt a Brownfields Financial Tax Incentive Program (BFTIP). This is a financing tool that provides municipal property tax assistance to landowners redeveloping brownfields. Municipalities offering the tax incentive can apply to the Province to receive matching education property tax assistance to increase the amount of assistance available to the landowner.

Section 365.2 of the Municipal Act establishes the Heritage Property Tax Relief (HPTR) program whereby municipalities may pass a by-law to establish a local HPTR program to provide tax relief (between 10% and 40%) to owners of eligible heritage properties, subject to an agreement to protect the heritage features of their properties, subject to an agreement to protect the heritage features of their properties. Eligible heritage properties include designated properties under Part IV or Part V of the Ontario Heritage Act.

Business Retention & Expansion Programs

Aurora

The Town of Aurora has implemented a number of initiatives to promote economic development which include, but are not limited to, the following:

- **Business Networking/Information Seminars**—Town staff host these sessions semi-annually, some in conjunction with the Aurora Chamber of Commerce.
- **Business Newsletter**— Semi-annual publication
- **Aurora Business Ambassadors Program**— Ambassadors provide important feedback to Town staff on a variety of business issues as well as contacts with national and international companies.
- **Corporate Visitation Program** —On a monthly basis, a team of Town officials visit a local business in order to meet company representatives, tour facilities and discuss issues of importance.
- **Investment Retention & Attraction Strategy**—The EDO gathers community intelligence, prepares economic market information and provides a liaison between municipal government and local businesses.
- **Development Coordination Role**—The Economic Development Division staff undertake a ‘One-Point-Of-Contact’ role, working closely with the development community to assist non-residential investors in navigating the municipal approvals process.

Barrie

- **Corporate Visitation Program** – The Business Development Department visits businesses with the purpose and intent of gathering information and data to further support the growth and development of the local economy.
- **Business Seminars and Events** – The City of Barrie partners with a variety of government and non-government business support organizations to deliver specialized programming to targeted business sectors, in addition to the business community at large.
- **Sandbox Centre for Shared Entrepreneurship and Innovation** – The City of Barrie partners with the Sandbox, a centre where business and community are united for people and companies to grow through a culture of innovation. The Sandbox runs a variety of events and programs to support entrepreneurs. The City of Barrie’s Small Business Centre is located at the Sandbox.
- **Workforce Development** – The Business Development Department and regional partners work with local businesses, and local school boards and post-secondary institutions to maximize opportunities for the integration of practical programs into the business community, including co-ops, internships and apprenticeships.
- **Business Concierge Program** – The Concierge Program is a pro-business approach to development facilitation and issue resolution to help ensure that projects or issues are dealt with in an efficient manner. The Business Development Department is assigned to high profile and/or complex development projects or issues to provide extra client guidance and facilitation support.

Business Retention & Expansion Programs

Brampton Cont'd

Economic Development Master Plan

The City's Economic Development Office is currently undertaking an Economic Development Master Plan (EDMP) that will focus on five themes, including talent, investment, innovation & technology, competitiveness and employment lands, as well as provide guidance to the City's leadership and the business community on possible options and partnerships to achieve the desired economic results. The EDMP is expected to be completed by Q2 2018.

Culture Master Plan

In support of a prosperous and culturally vibrant community, the City is developing its first Culture Master Plan to set the strategic direction of arts and culture in the city.

Sector Lead

As Brampton moves to take a prominent position as a major urban centre, our Economic Development approach is transforming to match. Brampton's Economic Development Office has a new sector-based approach, anticipating the skills and industries of tomorrow, while accounting for traditional strengths

Expeditor

The newly created role of Expeditor in the Economic Development Office will work across the key sectors, supporting activities, and working to streamline client service by acting as a facilitator and conduit to municipal services for the business community.

Brant County

County of Brant Economic Development Strategy and Action Plan contains four pillars including: Growing a More Diversified Local Economy, Driving Investment to the County of Brant, Building County of Brant's Downtown Core Areas, and a renewed focus on Communication and Engagement

- **Site Selection** – County staff assist site selectors and businesses looking for available land in the County and providing key information such as demographics and relevant population statistics. County website is equipped with a Brant specific site selection tool.
- **Business Visitation** – Staff actively visit businesses to discuss opportunities for growth, obstacles and potential partnerships.
- **Development Liaison Position** – staff position to help guide and be single point of contact for development application that create or retain employment ion the County of Brant.
- **Promotion of Tourism** – active promotion of tourism businesses through a variety of channels including social media, print advertisement, promotions, and marketing to group tour operators.
- **Value Reports** – ongoing communication to the business community to demonstrate the work undertaken by County of Brant staff to achieve components of the strategy and contains economic development metrics around industrial and commercial building permits, community improvement plan uptake, and visitor spending.

Business Retention & Expansion Programs

- Continue working with the Business Centre Guelph-Wellington to promote the small to medium size business support one day a month in the Town
- Research the feasibility of holding quarterly Business Ambassador and mentorship evenings to support current and attract new business.
- Formalize and streamline in house processes for new and relocating businesses
- Co-ordinate the Doors Open Erin – 4th Annual – June 8th
- Continue working with the Erin Economic Development Committee (EEDC) on strategic goals outlined in NEW Strategic Plan
- Continue to nurture a collaborative relationship with local business organizations and endeavor to create more contacts
- Continue a collaborative relationship with the County of Wellington Economic Development Department and County wide EDO’s
- Continue to support youth and entrepreneurs by having a Town booth available to promote entrepreneurial ideas at the Erin Farmers Market
- Produce a new Community Profile/Annual Report to attract business and investment

Business Retention & Expansion Programs (cont'd)**Fort Erie**

- **Business Directory** of all local businesses and services.
- **Development Assistance:** Site location analysis and continued support through planning and development process.
- **Downtown Core Areas Community Improvement Plan:** Fort Erie offers commercial façade and residential intensification grant programs.
- **Incremental Marketing Program:** The EDTC provides assistance in financing marketing and advertising initiatives in accordance to the marketing plan and budgets of the local Business Improvement Associations (BIA's).
- **Niagara Foreign Trade Zone (NFTZ):** Headquartered in Fort Erie, the designated Canadian Foreign Trade Zone Point provides businesses with one-window access to information, programs and incentives to improve international trade efforts. Specifically, companies who export can apply for tax, duty and tariff exemptions that can significantly improve their bottom line.
- **Niagara Development Corridor Partnership Inc. (NDCPi):** NDCPi is a not-for-profit organization and the collaboration of economic development professionals from Fort Erie, St. Catharines, Niagara Falls, Lincoln, and Port Colborne to encourage economic growth across the region. The NDCPi leverages the experience and skill sets of economic development staff to benefit the member communities, business constituents, and community development stakeholders.
- **Niagara Gateway Economic Zone and Centre Community Improvement Plan:** Fort Erie is one of only five communities that are included in the program which provides eligible projects with property tax reductions between 40% and 100% for five to ten years as well as grants to cover Regional Development Charges.
- **Physician Recruitment & Retention:** Fort Erie has a dedicated Community Health Care Services Coordinator and a Committee who lead the recruitment and retention of quality physicians. Fort Erie offers lucrative incentive packages for new physicians coming to the community.
- **Roundtables:** Annual roundtables with development stakeholders and industry leaders to strategically identify industry, political, and business challenges to sustain Fort Erie as a competitive hub for investment, development, and economic diversity. The annual roundtables provide an opportunity for communication and relationship building between the Town and industrial, commercial, and tourism professionals.

Business Retention & Expansion Programs (cont'd)**Georgina**

- **Business Networking and Workshops**—Town staff, in partnership with the Georgina Chamber of Commerce, OMAFRA, YSBEC, and York Region host a number of seminars throughout the year.
- **Economic Development Print and Electronic Newsletter**—The e-newsletter is published bi-weekly and a printed newsletter is published quarterly.
- **Business Visitation Program** —The Economic Development Officer conducts visits to new and existing businesses to strengthen the Town's BR+E efforts.
- **Business Research and Development** —The Town provides research on local statistics, land inventory and other relevant site selection information. Economic Development staff act as a point of contact for business expansion and new development to help businesses navigate the municipal approval process.
- **York Small Business Enterprise Centre**—The YSBEC provides businesses and entrepreneurs with training, professional consultation, networking, community outreach programs and disseminates information through their newsletter.
- **Economic Development and Community Building Grants**—The Economic Development and Community Building Grant Program provides financial assistance to programs/events that serve to promote the Town of Georgina externally, generates economic opportunities for the local business community and provide for the betterment of the Community.
- **Community Improvement Plan Grants**—The Town of Georgina has released four CIP grant programs that business owners and commercial property owners within the designated BIA boundaries can apply for to revitalize the area, attract tourists and new businesses: Façade Improvement Grant, Heritage Building Grant, Landscape Improvement Grant, Accessibility Improvement Grant.
- **Business Improvement Area Support**—The three BIA's: Uptown Keswick, Sutton, and Jackson's Point are provided support and assistance from Economic Development staff.
- **Discover Georgina**—In partnership with the Chamber of Commerce, the Town is actively promoting local events to increase tourism to the area. Accessing partnership opportunities through Central Counties Tourism, York Region Arts Council and OTMPC, the Town is able to maximize their marketing reach and increase tourism interest.

Business Retention & Expansion Programs (cont'd)**Gravenhurst**

- **Business Visitation Program** – The economic development team is committed to visiting businesses on a regular basis to create and maintain relationships with local proprietors and learn about current challenges or successes. We have seen success at making connections for local businesses through introductions as well as providing data, local insights and information, among other services.
- **Business and Investment Concierge Program** - This core service includes a number of elements to assist local entrepreneurs and potential investors obtain data and navigate community opportunities and resources as well as municipal policies and processes as needed. This includes;
 - Community Information and Investment Packages
 - Site Selection Coordination (including land and building listings and real estate market data)
 - Internal Department Navigation and Meeting Coordination
 - New Business Packages
 - Grand Opening Coordination
 - Business Directory Listings
- **Annual Business Review Survey** – Starting in 2015 the economic development division undertook a program that involved created a hybrid of data collection and visitation. At the end of each year the team reaches out to each business to talk to them about how their year has been, ways to improve and provide any assistance that we can. This real time data is useful to both existing and potential businesses and informs the development of project, initiatives and strategies the town can implement to assist and support the local business community.
- **Visitor Information Collection Program** – Started in 2017, this survey allows us to collect visitor demographics and insights at a local level which had not been previously available. The program sets a baseline to future growth and provides valuable data and trends related to our local tourism economy which can be compared and corresponded to regional data sets. It also helps to inform future initiative, programs and KPI's related to tourism development.
- **Gravenhurst Destination Plan** – Completed in 2020, this strategic plan sets out insights and actions items over the next 5 years to increase and improve tourism offerings in Gravenhurst all year round.
- **Wharf Revitalization Plan** – Completed in 2020, this strategic plan sets out insights about the current challenges and opportunities related to the Muskoka Wharf development and contains a number of action items for the future to increase business investment, investment capacity, residential mix as well as usage by residents and visitors all year round.
- **Partnership Development** – The Economic Development Team leads partnerships with local, regional, provincial and national organizations to ensure that our businesses have the resources that they need. These partnerships can lead to additional services such as small business start-up, business financing, legislation assistance and business education.
- **Open Door Policy** – The economic development division maintains an open door policy to local residents,

Business Retention & Expansion Programs (cont'd)

Greater Sudbury

- **Company Visitation Program** - City staff regularly visit local companies to ensure that they are aware of programs and supports available for business expertise as well as expansion, investment or relocation.
- **Market Research** - Staff use proprietary databases to provide customized research queries for local companies.

Mississauga

The City of Mississauga Economic Development Office (EDO) provides information and services to help businesses grow and prosper in Mississauga.

EDO services include:

- Enhance and optimize business retention and expansion opportunities through B2B connections
- Business problem-solving and site location assistance
- Guidance related to government program assistance and approvals
- Small business start-up and entrepreneur support
- Create and implement economic and sector development strategies and programs
- Build awareness of Mississauga's value proposition, global competitiveness and culture of innovation
- Seek solutions for our key sectors and support businesses through challenges and opportunities
- Build partnerships and relationships with industry and non-industry stakeholders

Business Retention & Expansion Programs (cont'd)**Mississauga Cont'd**

Key Mississauga economic development programs are as follows:

- **Business Outreach Program:** The City hosts a proactive business outreach program across key industry sectors. EDO and senior executives of Mississauga companies discuss current operations, future plans and assistance needed to do business in Mississauga. Elected officials and senior staff from the City visit major new companies to the city each year to develop a rapport with the business community, determine the level of satisfaction with City services and address issues.
- **Global Investment Program:** In pursuit of our goal of becoming a “Global Business Magnet,” the City has implemented an International Marketing Strategy with the goal of developing a compelling global brand to attract business, investment and jobs to Mississauga. In order to attract foreign direct investment (FDI) and to build Mississauga’s global awareness, EDO participates in a number of investment missions across key target markets, such as Japan and the United States. The EDO (sometimes in partnership with key partners such as Toronto Global) goes in market to identify leads, build relationships and promotes Mississauga as a location for business investment.
- **Sector Development:** The EDO works with partners to address challenges and opportunities in order to facilitate a supportive business environment where businesses in Mississauga’s key sectors thrive and grow. To support this work, EDO employs two sector specialists: the Life Sciences Business Consultant and the Advanced Manufacturing Business Integrator.
- **Mississauga Business Enterprise Centre (MBEC):** The Mississauga Business Enterprise Centre (MBEC) offers small business information and resources, business consultations, seminars, online training, entrepreneurship programs and guidance to small businesses and entrepreneurs. These initiatives facilitate a supportive business environment to assist entrepreneurs to start-up businesses, expand existing small businesses, and the creation of jobs in Mississauga.
- **Encouraging Youth Entrepreneurship:** In support of youth and entrepreneurship, MBEC offers the Summer Company program which provides students with the opportunity to turn their ideas into business opportunities while developing professional skills. This program is delivered in partnership with the Government of Ontario and provides hands on coaching, mentoring and financial support to help young entrepreneurs start and operate a business.
- **Economic Partnerships and Community Engagement:** EDO sponsors and supports industry initiatives and events as well as association events, conferences and trade shows in order to develop business relationships with key stakeholders, develop awareness regarding Mississauga’s location benefits and to deliver key messages about the talent, organizations and community collaboration in Mississauga which benefits business.

Business Retention & Expansion Programs (cont'd)**Muskoka District*****Muskoka Enterprise Centre servicing all of Muskoka***

- Muskoka Affordable Housing Initiatives Program (MAHIP). MAHIP is a multiyear program for low and modest income households providing funding for the development and provision of affordable housing in the District of Muskoka. MAHIP funding will be offered to eligible Developers, Builders, Buyers and Landlords within Muskoka.
- Rent Assistance Programs - Renters, Retirement Homes and Landlords - Responding to a Range of Housing Needs in Muskoka. The District recognizes that current supply of housing options across Muskoka does not fully respond to the range of needs in the housing market, particularly for low and moderate income households living or working in Muskoka:
 - The Muskoka Affordable Housing Initiatives (MAHIP) Rent Supplement program for tenants provides eligible applicants with a monthly Rent Supplement that is paid directly to their landlord.
 - The Retirement Home Fee Assistance program provides eligible applicants with a monthly supplement that is paid directly to their retirement home operator.
 - Landlords may be eligible to enter into rent supplement agreements where they receive a direct payment for a portion of the monthly rent (average of \$225 per unit per month) toward rental units.

Muskoka Tourism Marketing Agency

- Muskoka Tourism provides a one window shopping experience to access information related to Ontario's premier four season vacation destination and is an invaluable resource for cottagers as well as visitors to the area and promotes many exciting vacation experiences including first-class attractions, accommodations and businesses.
- Muskoka Tourism provides up-to-the-minute tourism information for travellers looking for cottage rentals, camping, B&Bs, resorts or other types of accommodation. Visitors have access to the latest information about recreational activities including golf, boating, fishing, canoeing and many other outdoor activities. The list of fun family things to do is endless: hiking and biking along Muskoka's nature trails, snowmobiling and skiing or just taking in some shopping, a spa treatment or festival... in Muskoka, you have so much choice.

Business Retention & Expansion Programs (cont'd)**Muskoka District cont'd****Muskoka Employment Partnership**

- The District Municipality of Muskoka is launching a two-year Muskoka Employment Partnership project in conjunction with the Simcoe Muskoka Workforce Development Board and with the support of a Local Labour Market Partnership grant provided through the Ministry of Labour, Training and Skills Development. The purpose of this initiative is to facilitate a broad industry and community-wide partnership process to address a significant lack of job candidates for employment vacancies in Muskoka by developing innovative strategies among a range of stakeholders to achieve the following:
 - Prepare more Muskoka residents further removed from the labour market to qualify for local jobs;
 - Enhance the HR skills of local employers, to improve job retention rates;
 - Introduce Muskoka students to career options in Muskoka, through more experiential learning experiences, in this way making local jobs more appealing to them; and
 - Attract more workers from outside Muskoka to work in Muskoka;
- The main deliverables of the newly created Muskoka Employment Partnership (MEP), which is being led by a steering committee representative of various key stakeholders, are to oversee sub-committee working groups, to convene an annual Muskoka Employment Summit, to enlist supporters and to develop further solutions to local employment challenges.

Niagara Falls

- **Niagara Gateway Economic Zone Community Improvement Plan and Municipal Employment Incentive Program**
 - Offers a tax increment based grant, planning application fee waivers, building permit fee rebates and study grants to stimulate investment in new or existing employment uses.

Business Retention & Expansion Programs (cont'd)**North Bay**

- The **Economic Development Department** assists existing businesses, prospective investors, and community partners with business and community development projects such as:
 - Investment attraction and investment aftercare, including development facilitation (i.e. services ranging from market/business plan review, site searches, development process support, community orientation to public funding application assistance);
 - Business retention and expansion;
 - Liaise with all levels of government to support business and facilitate market development, export and trade opportunities;
 - Municipal industrial land promotion/facilitation;
 - Support for small business and entrepreneurs (Small Business Enterprise Centre partnership with Province);
 - Film & TV production attraction, support, and administration;
 - Support for workforce development, capacity, resiliency, job creation and skills building, including immigration support;
 - Community development, capacity and marketing partnership projects; and
 - Municipal Grant Accessing Program (GAP) services.

- **Business Development Process** - the City works to streamline the development process for existing and new companies. To expedite the process, the City has created the Development Application Review Team (DART). The DART reviews all development applications, including Site Plan Control Agreements, Committee of Adjustment Applications, Official Plan Amendments, Rezoning, Subdivision and Condominium Applications in a planned and coordinated approach.

- **Sale/lease of municipally-owned land** - In addition to its low industrial tax rate, North Bay offers several financial incentive programs that help support new development in Community Improvement Plan areas. Our industrial parks offer fully-serviced land at attractive prices, choice of location and size of parcel, for qualified projects.

- **The Business Centre Nipissing Parry Sound** - is a not for profit organization that offers information, programs, training and resources to entrepreneurs, start-ups and expanding businesses in the districts of Nipissing and Parry Sound as part of the Ontario Small Business Enterprise Centre (SBEC) Provincial Network.

Business Retention & Expansion Programs (cont'd)

Norfolk

Architectural and Design Grant (DCS-15): Purpose is to offset the costs associated with preparing the necessary plans and drawings that will outline the extent of the improvements being applied for. The program is available in the urban, hamlet, agricultural, and lakeshore areas. Norfolk County will provide a one-time grant, per property, based on a 50/50 matching cash contribution of the applicant to a maximum of \$1,500.

Planning Application Fee and Building Permit Fee Grant (DCS-20): Purpose is to stimulate and encourage development and property improvements, and to provide assistance with the associated costs. The program is available in the urban, hamlet, agricultural, and lakeshore areas. Grants will be provided in the amount of 50% of the eligible planning and building permit fees, to a maximum of \$3,000 in building permit application fees; and a maximum of \$1,000 in planning application fees. This provides for a potential total grant of \$4,000 to cover application fees.

Landscaping, Signage and Property Improvement Grant (DCS-17): Purpose is to provide assistance for upgrading the open areas associated with the property. The program is available in the urban, hamlet, agricultural, and lakeshore areas. Norfolk County will provide a one-time grant, per property, based on a 50/50 matching cash contribution of the applicant to a maximum of \$2,000.

North Perth

- Launch of a Pre-apprenticeship Training program with regional training partner in the field of Welding, Metal Fabrication and General Machining. To support workforce supply to area employers. Program includes in-class training and placements with local employers. Planned for Fall 2020.
- Implementation of Youth Attraction and Retention Strategic Plan including design and installation of a social space for youth in the renovated Elma Logan Recreation Complex/Daycare/Library. Complete in September 2020.
- Wayfinding and Gateway signage program – Implementation of current phase with new Gateway signage to North Perth completed in Spring 2020.

Oakville

- The Oakville Economic Development Department provides a proactive company visitation program. In addition, the Department provides site information, economic data and acts as the lead advisor to the Oakville Council, Chamber of Commerce and developers on expansion opportunities/constraints.

Business Retention & Expansion Programs (cont'd)**Orangeville**

- **Investment Readiness and Attraction**—Promotion of Orangeville as an investment and business location of choice completed through strategic marketing. Dedicated staff are available to provide customized one-to-one services and support to new investors and expanding businesses. Economic development staff serve as first point of contact for expansion and new business inquiries to facilitate the development process
- **Business Retention + Expansion Program**—Completion of sector-specific BR+E program. Initiative is designed to identify areas of concern and examine opportunities to help local businesses with their growth and expansion efforts. Implementation of BR+E manufacturing focused action plan currently underway with key strategies in place to support retention and growth of local enterprises.
- **Development Charge Exemption**—A 100% percent exemption of non-residential development charges for certain industrial uses exists to encourage industrial development and employment in Orangeville.
- **Business Research and Development Assistance**—Community-specific information readily available through up-to-date inventory of available, serviced commercial and industrial lands and vacant ICI buildings. Detailed site selection research and information, economic data, statistics and other relevant information on Orangeville's business environment readily available.
- **Workforce Development**—Collaboration with two local colleges, local high schools and with partners in regional Workforce Development Committee exists to support initiatives that will strengthen access to trained workforce.
- **Networking, Events and Partnership Development**—Liaison services are available to connect business owners with access to provincial and federal partners, programs and funding opportunities. Networking opportunities are also available at events delivered throughout the year, including specialized business seminars, the annual Economic Outlook Breakfast, and collaborative events with the local Board of Trade.
- **Dedicated Entrepreneurial Development/ Orangeville & Area Small Business Enterprise Centre (SBEC)**—Start-up and existing small business owners are supported with free guidance, support and resources during their initial years of operation. Services include business registration assistance, one-on-one consultations, a variety of literature on business related topics, and access to affordable workshops and seminars throughout the year. Specialized programs that include the Summer Company and Starter Company Plus provide specialized training, mentorship and possible grants to support start-up and expansion-ready small business owners, including youth.
- **Tourism and Cultural Development**—Ongoing implementation of Tourism Development and Marketing Plan and 2014 Municipal Cultural Plan to support growth of tourism and cultural initiatives, programs and businesses. Includes visitor information services with information on attractions, events, accommodations, and shopping and dining options in Orangeville and the surrounding region.
- **Publications and Information**—Current news, updates and opportunities are shared through dedicated websites (orangevillebusiness.ca and orangevilletourism.ca), an active social media program, videos, and through community and investment profiles.

Business Retention & Expansion Programs (cont'd)**Orillia**

- **Orillia Area Community Development Corp. (Orillia Area CDC)** – The Orillia Area CDC assists businesses with business plans, marketing plans, loans and grants and business counselling. The CDC also features a strong professional development series of business workshops.
- **Orillia & Area Online Business Directory** – The directory is promoted by the City and community partners as a source for local products, businesses and services.
- **Moratorium on Industrial Development Charges** – In 2011 Council initiated a moratorium on Industrial Development Charges. This successful program has resulted in significant expansions within the community, benefitting both the growing businesses and the community through new employment. The moratorium has been extended to until 2021 and will be reviewed by Council on an annual basis.
- **Explore the Trades** – The City of Orillia Economic Development Office supports the trades, in partnership with the Orillia Manufacturers' Association and the Orillia District Construction Association. In partnership with these organizations, the City of Orillia hosts an annual Explore the Trades event, which brings together over 30 local employers in the trades, together with over 1,500 local elementary and secondary students. The event showcases career opportunities in the trades, both regionally and in the Orillia area.
- **Economic Development Partnership Development** – The Economic Development Committee and staff regularly assist in the development of partnerships throughout the community. This includes everything from business-to-business partnerships to connections between post-secondary institutions and business leaders.
- **Business Information Seminars** – The Economic Development Office partners with other community organizations to offer informative workshops and events throughout the year including industry specific speakers, job training seminars and funding workshops in partnership with community partners.
- **Ontario's Lake Country Tourism Organization** – The OLC is the destination marketing organization for Orillia & Area and focuses efforts on promoting local tourism attractions and events, while attracting visitors to the area.
- **Tourism Strategic Action Plan** - The City of Orillia, in partnership with Regional Tourism Organization 7 (Bruce/Grey/Simcoe), are developing a Three-Year Tourism Strategic Action Plan and One-Year Business Implementation plan to facilitate growth and program delivery in the city.
- **Physician Recruitment Committee** – In Orillia, physician recruitment is a community-wide effort that includes the Economic Development Office. The City of Orillia provides annual funding to the committee and EDO staff assists with marketing initiatives.

Business Retention & Expansion Programs (cont'd)**Oshawa**

- **Cluster Development Strategy**—Oshawa has identified five priority growth sectors (Advanced Manufacturing, Health & BioScience, Energy, Multimodal Transportation & Logistics, and IT).
- **Innovation Support**—Oshawa is home to a Regional Innovation Centre called SPARK. SPARK offers support for technology-based businesses to grow from an idea through various stages of growth. The City provides financial support for “The Loft”, an incubator centre within SPARK’s facility that provides low cost space for fledgling entrepreneurs.
- **Fast Tracking Development Approvals Process**—The City’s Development Services Team offers a fast tracking development approvals process to accommodate approvals when timelines are tight.
- **Partnerships**—Oshawa partners with a number of local, regional and provincial partners both from the public and private sector to promote our area’s business opportunities and make those strategic connections. Partnerships include: the Greater Oshawa Chamber of Commerce, the Greater Toronto Marketing Alliance, Durham Economic Development Partnership and Durham Workforce Authority in addition to others.
- **Site Selection Tools**—Location assistance, navigating the development approvals process, access to critical information, and connections with other relevant organizations
- **Business Connections**—Regular contact with local businesses to provide support for a variety of issues including support for expansion, hiring, financing, access to other levels of government, etc.
- **Development Charge Exemption**—There are no City development charges for industrial development.
- **Workforce Development**—The City works closely with its local post-secondary institutions, Durham College and the University of Ontario Institute of Technology (UOIT), that develop leading-edge programs to train the workforce that employers need.
- **Publications**—Online Business Directory, a quarterly e-newsletter, as well as a Consolidated Community Profile and Development Insider annually
- **Networking and Business Education**—Economic Development and Staff bring a variety of workshops and networking opportunities to businesses.

Business Retention & Expansion Programs (cont'd)

Ottawa

Economic Development and Long Range Planning Services is part of the Planning, Infrastructure and Economic Development (PIED) Department, a department that champions the city-building agenda – from planning and delivering growth activities and infrastructure, to managing our assets and investments, to fostering economic prosperity.

Programs/Services Offered

- **Economic Development Long Range Planning Services:** facilitates economic growth in Ottawa by setting the direction and managing the evolution of the City. The service area delivers programs, services, and initiatives that advance job creation and economic diversification while managing the growth of the City through the Official Plan. The following are services offered:
- **Economic Development:** Create and promote economic development strategies to capitalize on assets and opportunities. Developing partnerships with key ED stakeholders to develop and deliver various programs to support investment attraction, business retention/expansion, entrepreneurship, tourism development.
- **Sponsorship and Advertising:** Develop and market sponsorship and advertising for City facilities and develop partnership opportunities to provide supports for Economic Development initiatives.
- **Research & Forecasting:** Centre of expertise for population, employment, land use, development of travel demand input data, and for monitoring and forecasting related to population, employment and housing.
- **Rural Affairs:** Provides for the continuation of the rural affairs office services to the rural community while positioning the office to support the development and implementation of a rural Economic Development strategy.
- **Policy Planning:** is responsible for developing the planning policy framework for directing and managing the growth of the City through the official Plan, secondary plans, natural systems plans and policies, and community plans and in developing and maintaining regulatory tools including the City's Zoning By-law, DC By-law and others for implementing these.
- **Zoning & Interpretation:** is responsible for developing zoning provisions to implement Official Plan policy, undertaking issue-or area-specific zoning amendments at the direction of Council, initiating land use studies and zoning by-law amendments in response to evolving land use issues and undertaking administrative updates to correct errors and ensure the efficient function of the Zoning By-law. Additionally, prepares by-laws for the approval of Council and providing formal interpretations regarding how the Zoning By-law is to be implemented and enforced.

Business Retention & Expansion Programs (cont'd)

Ottawa Cont'd

- **Community Planning:** is responsible for preparing the City's Official Plan (the blueprint for the City's future growth and evolution), and neighbourhood planning in all its aspects, including but not limited to Community Design Plans, Secondary Plans, Transit-Oriented Development Plans, and Neighbourhood Revitalization Plans.
- **Natural Systems & Environmental Protection:** provides strategic policy expertise and coordination to the City in the areas of natural systems & climate change mitigation and adaptation, while delivering clear, consistent environmental policies to support planning and growth management of the City while minimizing negative impacts and building resilience. It also fosters a positive public persona of Ottawa as a healthy liveable city through policy, strategies, public engagement by promoting stewardship of the natural environment and a sustainable, resilient city by developing and facilitating the implementation of watershed strategies, environmental plans, protocols, guidelines, by-laws and other tools to inform and influence the corporation's environmental and city building objectives.

South Bruce Peninsula

- South Bruce Peninsula is supportive of a strong and diversified business environment and works with partners to continually improve on the health of the local business economy.
- **Open-door policy**—The Economic Development Office has a welcoming open-door policy for residents, business owners, entrepreneurs, & investors to ensure all business-related inquiries are addressed in a timely manner.
- **Pre-consultation**—South Bruce Peninsula takes a progressive approach to development, as such, there is a stream-lined pre-consultation process where staff work closely with residents, businesses, developers and neighbourhood groups and other community members to ensure the successful completion of development projects. Staff review proposals to determine what documentation is required to support planning applications for your development. Meetings will be arranged with proponents if required.
- **Corporate Calling Program**—The municipality has a robust corporate calling program. For many local businesses exposure to the municipality is very limited and in many cases corporate calling is the first contact many of them have had with the Town.
- **Collaborative Partnership Development**—The Economic Development Officer establishes and maintains collaborative partnerships with local residents, Chamber of Commerce regional, provincial and national organizations to ensure businesses have the resources they need.
- **Façade Improvement**—The Town partners with the County of Bruce to deliver the Spruce the Bruce program for facade improvement. The program is based on guidelines from our Community Design Toolkits for businesses within the Municipality's Community Improvement Plan areas. Toolkits have been designed to promote individual community brands while maximizing consistency and developing a sense of place in the community's downtowns.
- **Physician Recruitment**—Actively implement ongoing programs for physician recruitment and retention for medical students, locums, or resident physicians or other incentives as deemed appropriate by the Town of South Bruce Peninsula and Committee.

Business Retention & Expansion Programs (cont'd)**St. Catharines**

- **Corporate Calling Program** – focused on building strong relationships w/ industry through a coordinated corporate visitation schedule aimed at identifying challenges and growth opportunities (business retention and expansion BR+E).
- **Project Expeditor Services** - provides certain land development projects with expertise, guidance, resources, and conflict resolution services to move land development projects forward and address challenges and obstacles to a planning or building permit approval.
- **Site Selection Assistance Program** – offering an array of services ranging from workforce development to shovel-ready land to help investors/businesses or relocate in St. Catharines.
- **Physician Recruitment Program** – the St. Catharines medical community is leader in providing collaborative care to its residents. City staff works closely with the medical community to assist with the recruitment and retention of medical professionals.
- **Tourism marketing and promotion** – staff work with *tourism*/industry partners and colleagues to develop and deliver *marketing programs* that increase visitor attraction/participation.
- **St. Catharines Enterprise Centre** - The Enterprise Centre provides the information, resources and tools that St. Catharines/Niagara's entrepreneurs need to launch and grow their small businesses. The office is a member of the Ontario Network of Entrepreneurs (ONE) and a community partner for the Entrepreneur Canada Program, and the Government of Ontario's young entrepreneur programs - Summer Company and Starter Company Plus.
- **Development Charges** - The City has not collected any municipal development charges since June 2009. However, Regional DCs are collected by the City on behalf of the Region of Niagara.

Business Retention & Expansion Programs (cont'd)

St. Thomas

- The St. Thomas EDC—Operates under a Board of Directors comprised of City Council and representatives from business and industry in St. Thomas.
- **Company Visitation Program**
- **Site Selection Services**—Full array of services to businesses wishing to expand or re-locate in St. Thomas or the Municipality of Central Elgin.
- **Investment Attraction**—The St. Thomas EDC is a founding member of the Southwestern Ontario Marketing Alliance (SOMA), an association which includes the municipalities of Aylmer, Ingersoll, Stratford, Tillsonburg and Woodstock.
- **Free Employment Assistance**—St. Thomas provides the services of Employment Services Elgin (ESE), a unique partnership with Fanshawe College and the Youth Employment Counselling Centre. ESE assists new companies with administrative tasks associated with start-up and staffing. Free services include pre-screening of potential employees, use of computers, office space, and other communication equipment, recruiting services, aptitude testing, and the provision of labour market information. ESE provides information on funding programs for employers.
- **Publications**—The Economic Development Corporation publishes an annual Industrial and Business Directory, a comprehensive Community Profile and a periodic newsletter.
- **Elgin Business Resource Centre (EBRC)**—As a Federal Community Futures Development Corporation, the EBRC finances new businesses and expansion, oversees the Small Business Enterprise Centre (SBEC) and the Innovation Centre for Entrepreneurs (ICE) business incubator, provides business services and referrals and funds economic development projects in St. Thomas and Elgin County.
- There are no Industrial Development Charges in the City of St. Thomas and Building Permit fees are capped at \$25,000.

Stratford

- **Stratford Economic Enterprise Development Corporation (SEED Co.)**—SEED provides a professional value-added business service to keep and grow Stratford business and attract new investment. SEED Co. operates in partnership with business, education and government sectors.
- **Stratford Municipal Development Incentives**—The City has no industrial development charges or levies.
- **Festival Hydro Retrofit Program**—Created in partnership with Ontario Power Authority to assist business owners to become more energy efficient and create operational cost savings.
- **Stratford Perth Centre for Business**—Offers free one-on-one confidential business consulting services. Also offered are entrepreneurial training and support through lunch and learn sessions, special events, breakfast networking group, women’s mentoring program, business plan development and referrals to business funding sources.

Business Retention & Expansion Programs (cont'd)

Stratford (cont.)

- **Business Calling Program**—A partnership project with the Mayor’s Office and SEED Co. to promote dialogue with major employers and manufacturers.
- **Opportunity Lives Here**—The City of Stratford, the Town of St. Mary’s and the County of Perth have partnered to launch a new online resource aimed at attracting skilled labour and talent to the region.
- **Investment Attraction**—SEED Co. and the City of Stratford are founding members of the Southwestern Ontario Marketing Alliance (SOMA), an association which leverages the City of Stratford on an international level.

Thunder Bay

- **The Thunder Bay Community Economic Development Commission (CEDC)** - Promotes business development, retention and expansion, entrepreneurial support, opportunity, promotion and collecting and assessment of key business data in a way that is project based, business led, community supported and partner driven.
- **The Thunder Bay & District Entrepreneur Centre**- Located within the CEDC’s administration office provides seminars, workshops and free and confidential business counselling services for new and existing small business and provides grants through the Starter Company Plus and Summer Company that is funded by the Ministry of Economic Development, Job Creation and Trade. As well as the Digital Main Street Go Digital, it is supported by a partnership between the Federal and Provincial governments with local squad team members to provide one on one support. For those eligible businesses there are grant funds available to achieve their digital transformation.
- **The Rural and Northern Immigration Pilot (RNIP)** - is a new community-driven immigration program lead by the Thunder Bay Community Economic Development Commission. It is designed to spread the benefits of economic immigration to smaller communities by creating a path to permanent residence for skilled foreign workers who want to work and live in Thunder Bay. The RNIP allows eligible employers to make full time permanent job offers to skilled foreign workers who can help fill identified labour shortages in our city. The Thunder Bay Community Economic Development Commission (CEDC) recommends people for permanent residence who have the skills and experience that the Thunder Bay economy needs, and the Government of Canada makes the final decision to approve applications for permanent residence.
- **Community Futures Development Corporation (CFDC)**—Finances new businesses and expansions, provides business services and referrals and funds economic development projects in the Thunder Bay Census Metropolitan Area.
- **Physician Recruitment**—The Thunder Bay Physician Recruitment and Retention program is a partnership of community, medical, government and academic institutions.
- **PARO Centre for Women's Enterprise**—PARO is one of Canada's most successful business support and networking organizations. As a not-for-profit social enterprise, we collaborate to empower women, strengthen small business and promote community economic development across Northern, Northeastern, Eastern, South Eastern, and Central Ontario (excluding the Greater Toronto Area).
- **Northwestern Ontario Innovation Centre** - The Innovation Centre’s goal is to help the innovative companies of Northwestern Ontario to start, grow, and succeed. They act as support system for innovation and strongly believe in collaboration and helping.

Business Retention & Expansion Programs (cont'd)

Tillsonburg

- **Accessibility Renovation Grant**—This program is intended to improve accessibility to existing commercial buildings and properties. This grant is up to \$3,000 in 50/50 matching funds
- See Downtown and Area Specific Section for more detail on programs.

Timmins

- Services include site selection, exporting information, community statistics, demographics and assistance on government assistance programs. There is a **Business Enterprise Centre (BEC)**.
- The City has formed a **Community Development Committee** which is comprised of a team of senior staff who meet weekly to deal with matters relating to land acquisitions/purchases, development proposals, special projects and are available to meet face-to-face with residents and business people to discuss issues and proposals relating to community development.
- **Timmins and Area Business Self-Help Office** offers a walk-in resource library of business information with a knowledgeable Business Consultant. Council has eliminated development charges in the City for all classes of development.

Toronto

- Economic Development manages **Enterprise Toronto** www.enterprisetoronto.com—A public-private alliance assisting entrepreneurs and small business. Its four business centres provide one-on-one assistance to those starting or growing an early stage business.
- Toronto cost-shares capital improvement in designated retail business districts and traditional employment areas.
- Toronto’s Economic Development team provides specialized business knowledge and information on Toronto’s [key industry clusters](#)

Business Retention & Expansion Programs (cont'd)

Vaughan

- The Office of Economic Development provides corporate and community based services including:
 - Smart City initiatives
 - Air Service and Business Development at the Region of Waterloo International Airport
 - Economic Cluster Development Strategies
 - Employment Land Assembly and Site Readiness
 - Land Development Incentives (Brownfields, Development Charges, etc)
 - Economic Development project marketing and branding
 - Waterloo Region Small Business Enterprise Centre
 - Economic Development Data and Market Research Services
 - Facilitating strategic investment opportunities that require Regional approval
- Industrial Use Strategy
 - The Region provides a 60% reduction in the development charge for a new industrial building or an enlargement of more than 50% of the gross floor area of an existing industrial building.

Welland

- Welland offers Site Location, Business Facilitation, Venture Niagara, Club 2000 services.

Business Retention & Expansion Programs (cont'd)

County of Wellington

The new Wellington County Economic Development Three-Year Plan (2019-2021) reaffirms goals and actions for the department for the next three years. Key priority and action areas include: growing key industries, attracting talent, supporting businesses, planning for the future, and promoting Wellington County.

- **This Way to Wellington Signage Programme** - This initiative is designed to promote greater awareness of Wellington's boundary communities, to generate new investments, attract tourism and strengthen County pride. Since 2016, gateway and tourism directional signage have been installed across the County, with community signage to come in 2020.
- **Business Retention and Expansion (BR+E) Municipal Implementation Fund**—The BR+E Municipal Implementation Fund provides funding for the direct execution of BR+E activities to enhance the local economy. Since it was enacted in 2014, the County BR+E Fund has generated \$1.7 million in leveraged investments within Wellington County. Resulting projects include business recruitment activities, business support, signage, community growth plans, community improvement plans and marketing programmes. The \$940,000 County investment has created a 63% return on investment and noticeable, positive changes within Wellington County.
- **Live and Work Wellington** initiative supports the labour market needs of Wellington County businesses. Wellington County Economic Development division participated in the development of Findyourjob.ca launched by the Waterloo, Wellington Dufferin Workforce Planning Board in 2020.
- **Attainable Housing Strategy**—The strategy was completed in November 2019 and provides a well-informed framework of research, public input, a simulated pilot project for a Community Land Trust solution, and a study of housing types that address attainable housing issues in Wellington County
- **Ontario Food Cluster, Investment Attraction** - In 2016, the County of Wellington became a member of the Ontario Food Cluster (OFC). The OFC is a cost-sharing partnership of government and economic development organizations in southern Ontario that pool their resources together to attract agri-food company investment to the participating Ontario communities.
- **Festivals and Events Guide** - Each year in partnership with Wellington's seven member municipalities, the Economic Development division produces the Festivals and Event Guide. Wellington County boasts over 200 local festivals and events annually.
- **Taste Real Local Food Programme** - Guelph Wellington is a region deeply rooted in agriculture, with a long tradition in food preparation and processing. The Taste Real programme helps to build connections within the region to make it easy for residents and visitors to access local food and local food experiences.
- **Ride Well Rural Transportation**—On October 1, 2019 the County of Wellington's RIDE WELL rural transportation service officially launched. RIDE WELL is a pilot programme, supported by a MTO Community Transportation grant of \$499,550, available over five years, to allow for the implementation of a ridesharing system across Wellington County. The goal of the County's RIDE WELL service is to make it more convenient for residents and visitors, including seniors, youth, persons with disabilities and others to access essential services, get to work and participate in our community.

Business Retention & Expansion Programs (cont'd)

- **Southwest Integrated Fibre Technology (SWIFT)** - In 2011, the Western Wardens initiated the SWIFT project with the goal of providing 3.5 million people across 350 Ontario communities with high-speed internet service. Today SWIFT includes 20 partners who have contributed. \$17 million in funding in addition to \$180 million in financial support from the Provincial and Federal governments. The County of Wellington is one of these partners, having committed to \$880,000 over a five-year period in the Economic Development budget. Wellington County is actively engaging in activities to strengthen internet service, gather data and engage the community to help solve connection challenges in the years to come. In 2019, SWIFT launched an RFP for a \$12.1 million, internet infrastructure buildout in Wellington County. Bringing residents in Wellington County one step closer to getting better high-speed internet, with work beginning in 2020.
- **Smart Cities Our Food Future, 50 x 50 x 50 by 2025:** Creating Canada's first circular food economy. In 2019, Guelph-Wellington was awarded the Smart Cities Challenge \$10 Million prize from Infrastructure Canada to implement the Smart Cities vision: Our Food Future, Canada's first circular food economy. January 2020 marked the official launch of Guelph-Wellington's Our Food Future project. The project aims to create a Guelph-Wellington Circular Food Economy. The 50x50x50 by 2025 campaign focuses on three bold goals: 1) 50% increase in access to affordable, nutritious food; 2) 50 new circular food business and collaboration opportunities; and 3) 50% increase in economic revenues by reducing or transforming food waste.

Wellington North

- Community Growth Plan completed in 2018. The document is a local strategy for managing and directing the planned population and employment growth in Wellington North. The plan contains strategies and initiatives that along with the Wellington County Economic Development Strategic Plan, and the Township of Wellington North Strategic Plan, will help to guide our Economic Development efforts through to the end of this term of council.
- Primary focus of BR+E efforts continue to be on the Downtown/Retail Sector, Manufacturing and in 2019 this was expanded to include the Health care sector.
- Mayors Roundtable established in 2019 to support the manufacturing sector with a specific focus on Housing, Transportation and Talent Attraction.
- Monthly Wellington Economic Development meeting includes each municipality, Wellington County, OMAFRA, MEDEI, GWLIP, two Community Futures Corporations, Workforce Planning Board, Wellington Federation of Agriculture and Guelph Wellington Business Enterprise Centre.
- Saugeen Connects partnership with Minto, West Grey, Brockton, Town of Hanover and the Saugeen Economic Development Corporation. In 2019 the Saugeen Connects group won the Award of Excellence for Community Economic Development from Community Futures Ontario.

Youth Retention Programs

- ROI grant received in 2019 to hire a Municipal Youth Intern with the project focus on underrepresented Youth.
- Northern Wellington Youth Connections Event.
- Saugeen Student Start Up program implemented in 2019 to promote Youth entrepreneurship.

Business Retention & Expansion Programs (cont'd)

Whitby

- Information on available development sites, industrial and office properties
- Demographics and statistics relevant to businesses and investors
- An online Business Directory
- Corporate calls with the local business communities to learn about their products/services and their markets to assist in promoting them

 - On-site visits with potential business partners, business support organizations and to potential facility locations
 - Company introductions and project tours
 - Information meetings with subject matter experts regarding corporate legal, immigration, banking/financial, HR, and real estate requirements

- **Business Advisory Services**—In partnership with the Region’s nine local cities and towns, the York Link team provides strategic “one-stop shop” support services for Canadian and international companies looking to establish operations in York Region, part of the Greater Toronto Area, as well as established local businesses in the Region seeking to expand. We offer advisory support services, research, partnership development and marketing to help retain, grow and attract businesses in York Region.

- Sector-specific business information relating to York Region, the Greater Toronto Area, Ontario, and Canada
 - Identification of potential local supply chain and strategic business partners
 - Advice on market/export expansion plans and projects
 - Linkages to innovation and commercialization support programs such as the Manufacturing Innovation Network and venture LAB Regional Innovation Centre

Downtown/Area Specific Programs

Barrie

Community Partner Support & Liaison

The City of Barrie works with a number of community partners including area municipalities, local post-secondary institutions, the Royal Victoria Regional Health Centre, Greater Barrie Chamber of Commerce, Downtown Business Improvement Association (BIA), and Tourism Barrie to collaborate on projects and coordinate resources

The Community Improvement Plans (CIPs) provide financial incentives to achieve current community goals and priorities, and targets key planning and strategic objectives for development within Barrie’s Built Boundary.

Development Charge Discounts are applied for certain uses, including:

- Development lands owned by non-profit institutions for institutional uses by the non-profit institution for their own purposes; 50% of the development charges chargeable
- One accessory building to an existing industrial building is charged \$2.33 per square foot
- The first 1.5 million sq. ft. of space constructed for a number of targeted industrial uses shall be subject to a 40% discount of the development charges otherwise applicable.

Bracebridge (see business retention and expansion section from program details)

- **Business Improvement Grant/Loan Program**
- **Housing Rehabilitation Grant/Loan**
- **Façade Improvement Grant/Loan**
- **Signage Improvement Grant**
- **Property Improvement Grant/Loan**

Downtown/Area Specific Programs

Brampton

Central Area Community Improvement Plan

The Central Area Community Improvement Plan (CIP) establishes programs to provide financial and other incentives to meet the City's Central Area land use planning objectives, including the Building and Facade Improvement Program, Development Charges Incentive Program and Sign Permit Fee Subsidy Program.

Downtown Brampton BIA

The Downtown Brampton BIA promotes the commercial area as a vibrant business and shopping district. Using promotional activities such as special events, advertising, and beautification programs, the BIA aims promote the area as an attractive, pleasant place to shop, to be entertained, to work, and to live. The organization is a not-for-profit association where the property owners, and commercial tenants who pay a portion of the property tax, pay a special levy that funds the organization.

Brant County

Community Improvement Plans are in place for the historical downtown areas of Burford, Paris and St. George. County of Brant Community Improvement Plans include a comprehensive suite of grant that assist property owners and tenants with:

- Facade improvement
- Signage improvement
- Property and Private Parking Area Improvement
- Upper Story Apartment Improvement
- Property and Private Parking Improvement
- Planning and Building Application
- Adaptive Commercial Reuse Grant
- Tax Increment Equivalent Program
- Brownfield Study
- Brownfield Property Tax Assistance

Brockville

- **Tax Increment Equivalent for Rehabilitation and Redevelopment (TIERR) Grant Program:** The program provides a grant to owners of lands and buildings who undertake improvements or redevelopment that would result in an increased property assessment. The amount of the grant provided depends on the increase in the municipal portion of property taxes resulting from the improvements. The program offers a grant of 100% of the increase in municipal realty taxes paid annually for a maximum period of five (5) years.
- **Residential and/or Commercial Conversion/Rehabilitation (RCCR) Grant Program:** This program provides a grant to owners or tenants of buildings who choose to upgrade existing space on upper floors to create new or improved residential and/or commercial space in keeping with the original goals of the Downtown CIP. The program will provide the property owner or tenant with a grant equal to 50% of the costs for space converted or rehabilitated up to \$20,000 per property subject to the approval of the Planning Department.

Downtown/Area Specific Programs

Brockville Cont'd

- **Façade Improvement Grant Program:** This program provides a grant to owners or tenants of buildings who undertake restoration and/or rehabilitation of Program Area buildings in a fashion consistent with the original design or with the City's Urban Design Guidelines and the requirements of the Ontario Building Code.

The Façade Improvement Grant Program offers a grant of up to 50% of the total cost of façade improvements where a project has a value of more than \$2,000, to a maximum of \$10,000 per annum, per property, per façade. The number of front facades eligible for grant purposes is based on the number of "distinct facades".

Caledon

- Exemption of development charges for the Caledon East Commercial Core Area and the Bolton Business Improvement Area
- **Community Improvement Plans (CIP)** for Alton, Bolton, Caledon East, Caledon Village, Cheltenham, Inglewood, Mono Mills and Palgrave. The CIP outlines a series of proposed improvements to sidewalks, pedestrian connections, streetscapes, parks and other spaces. The CIP also outlines financial incentives - grants - made available to private property owners and tenants. The purpose of the grants is to encourage investments in commercial and mixed use properties, and contribute towards the revitalization and beautification of each of

Cambridge

Incentives – Core Areas

- **Design Guide Program**— The Design Guide Program helps offset the cost of hiring professional services to develop architectural-type designs and drawings for improvements, renovations or restoration of the outside of buildings (façades).
- **Building Revitalization Program**— The Building Revitalization Program provides financial help, in the form of a Loan and a Grant, to complete the physical improvements needed to preserve and enhance the buildings and streetscapes of the Core Areas. Property owners (or their authorized agents) of buildings located in one of the three Core Areas are eligible to apply for this program.
- **Application Fee Exemptions**— All properties located in the Core Areas are entitled to Application Fee Exemptions for: Building Permits; Sign Permits and Swimming Pool Permits; as well as Development Applications (Severance; Minor Variance; Site Plan; Official Plan Amendment; Zoning By-law Amendment; Pre-consultation; Plan of Subdivision; Plan of Condominium; Condominium Conversion; Part Lot Control).
- **Development Charge Exemptions**— All properties located in one of the three Core Areas are entitled to Development Charge Exemptions (Regional and City). Development Charges are fees which may be collected to help offset primarily capital costs incurred when providing the necessary infrastructure to serve projects. These may include Core Areas new development, redevelopment, renovations and/or additions to existing properties. Note: Development Charges collected by School Boards are not exempt.
- **Canvas for Success**— An available properties inventory to assist start up and scaling businesses in finding available store front locations for sale or lease within each of our three downtown core areas.

Downtown/Area Specific Programs

Cambridge cont'd

- **Tourism & Agriculture Directional Signage** – A partnership program whereby eligible business can purchase signage to be installed in the right of way to direct visitors to their locations
- **Operating Grants** – To assist downtown organizations in offsetting costs associated with maintaining the new enhanced downtown areas (street-scaping)
- **Tourism Information Centre Grants** – To continue facilitating the hiring of a student to operate the Tourism Information Centre
- **On Street Sidewalk Pilot Patio Program** – A 2 year pilot project that permits local businesses to open a seasonal patio on the sidewalk or in an on-street parking area in front of their business

Halton Region

- All of the local municipalities in Halton have active partnerships with Downtown Business Improvement Area Associations (BIA's) to maintain and improve Downtown areas. Burlington, Milton and Oakville have specific urban areas designated as Urban Growth Centres under the Provincial "Place to Grow" legislation and plans.

Hamilton

- The City of Hamilton offers financial incentive programs in the form of loans and grants to assist with various costs associated with the development/redevelopment of the downtown. Downtown development is exempt from development charges within a defined area. Additionally, there is a program to provide assistance to property owners within the 11 Citywide Business Improvement Areas for commercial property façade improvements.
- **Hamilton Downtown Multi-Residential Property Investment Program**—Offers an interest free loan based on 25% of the costs-to-construct budget to a maximum of \$5 million per development.
- **The Gore Building Improvement Grant Program**—Available to owners and authorized tenants of properties fronting on King Street East between James and Catharine Street around Gore Park. It offers a matching grant to a maximum of \$50,000 for building improvements.
- **Development Charges**—90% of City and Go Transit Development Charges are waived in the Downtown Hamilton Community Improvement Project Area otherwise payable, after all other credits and exemptions are considered.

Other Programs

- **Hamilton Tax Increment Grant Program**
- **Office Tenancy Assistance Program**
- **Commercial Corridor Housing Loan and Grant Program**
- **Commercial Façade Property Improvement Grant Program**
- **Hamilton Heritage Property Grant Program**
- **Hamilton Community Heritage Fund Loan Program**
- **Business Improvement Area Commercial Property Improvement Grant Program**
- **Hamilton Heritage Conservation Grant Program**

Kincardine

- Bruce County Economic Development Grants The County of Bruce launched “Economic Development Grant” Similar to “Spruce the Bruce” these grants are for lasting downtown revitalization community improvements i.e. Community signage, destination infrastructure, streetscape beautification which the municipality supports

Downtown/Area Specific Programs

King

- **Community Improvement Plan (CIP)** for the commercial cores of King City, Nobleton and Schomberg were approved in September 2014 and implementation commenced in 2015. The Plan outlines financial incentives for property owners and tenants to invest in their property and outlines other actions, projects and strategies that the Township will undertake to implement the Plan. Financial incentive grants are offered for the following property improvements:
 - **Signage Improvements:** 50% of project cost or \$2500 whichever is less
 - **Façade Improvements:** 50% of project cost or \$10,000 whichever is less
 - **Landscaping Improvements:** 50% of project cost or \$5000 whichever is less
 - **Building Accessibility:** 50% of project cost or \$3000 whichever is less
 - **Motor Vehicle and Bicycle Parking:** 50% of project cost or \$5000 whichever is less
 - **Property Conversion, Reuse and Repurposing:** 50% of project cost or \$10,000 whichever is less
 - **Planning and Building Permit Fee Rebate:** 100% up to \$5000
 - **Tax Increment Equivalent Grant:** for major redevelopments, additions etc.; 100% of assessed value increase amount paid annually in decreasing amounts for up to 10 years.
- It is anticipated the CIP Financial Incentive Program will continue for a minimum 10 year period.
- **Beautification** - A five year Streetscaping and Beautification Plan for King City, Nobleton and Schomberg’s commercial cores is well underway with multimillion dollar investments made in quality of placemaking in both King City and Nobleton.
- **Schomberg Main Street Revitalization Strategy** - A Downtown Revitalization Strategy was endorsed by Council in May, 2019. 65 Actionable items are now being implemented as part of the integrated and comprehensive plan that focuses on Marketing & Promotion, Economic Development, Physical Designs & Improvements and Management & Organization.

Kingsville

- Community improvement continues to be a key part of the ongoing maintenance and development in the Town of Kingsville. The general purpose of any improvement programs is to maintain and enrich the Cottam downtown area by realizing the benefits of the area.
- Exterior Improvement Grant. This program would be structured to provide a broad field of opportunities including façade upgrading and improvement, accessibility upgrades, new signage, permanent landscaping infrastructure and energy efficiency improvements.
- Grants would be available for up to 25% of the total cost of the qualifying changes in the Cottam CIP area with a maximum grant of up to \$2,500. The program is suggested to have a funding commitment of \$20,000 in the first year. This would provide up to 8 grants (based on the maximum grant).

Downtown/Area Specific Programs

Kitchener

- Startup Landing Pad Program-Leasehold Improvements
- Startup Landing Pad Program—Accessibility Improvements
- Façade Improvement Grant Program
- Grants in Lieu of Building Fees
- City and Regional DC exemption in place until March 1, 2019

London

- **Façade Improvement Loan Program** – Downtown, Old East Village, SoHo, and Hamilton Road properties improving the building façade may be eligible for a 10-year interest-free loan up to a maximum of \$50,000 or half the value of the façade improvements being proposed. In certain areas of Downtown, Old East Village, and Hamilton Road, 25% of the annual loan repayment may be forgivable in the form of a grant.
- **Upgrade to Building Code Loan Program** – Assists Downtown, Old East Village, SoHo, and Hamilton Road property owners with interior improvements that relate to Fire and Building Code requirements. May be eligible for a ten-year interest-free loan up to a maximum of \$200,000, or half the value of the work proposed. In certain areas of Downtown, Old East Village, and Hamilton Road, 12.5% of the annual loan repayment may be forgivable in the form of a grant.
- **Rehabilitation and Redevelopment (Tax) Grant Program** – Provides grants to property owners in defined areas of the Downtown and Old East Village who undertake renovation or redevelopment projects, which result in a supplementary reassessment of their property. The annual grant amount is calculated based upon the increase in the municipal portion of property tax directly related to the redevelopment project. Annual grants are provided on a declining scale over a 10-year period.
- **Residential Development Charge Grant** – Provides a grant equal to a rebate of Development Charges (DC) for residential units constructed in the Downtown and Old East Village. DCs are required to be paid “upfront” at the time the building permit is issued. The program grants back a portion of the residential DCs paid by the applicant over an approximately 10-year schedule until 100% of the residential DCs have been repaid to the applicant.
- **Industrial Development Charge Grant** – Provides a grant for Targeted and Non-Targeted industrial uses to reduce the amount of Development Charges (DC) paid by the applicant. The program offers a 100% DC grant for Targeted industrial uses. For Non-Targeted industrial uses, a grant equivalent to 50% of the DCs to be paid, up to a maximum grant of \$250,000, with the remainder of the DCs to be fully paid by the applicant is available.
- **Industrial Corridor Enhancement Grant** – Provides a grant to enhance the public realm of industrial lands directly abutting the Highway 401/402 Investment Corridor. This program provides a grant equal to 50% of the cost of eligible landscaping, fencing, berming, screening, and public art on industrial properties that sufficiently improves the aesthetics of industrial sites, and/or provides effective screening of outside storage areas. The

Downtown/Area Specific Programs

Mapleton

- In 2017, the Township created a Community Improvement Plan (CIP). This CIP is a Township-wide, strategic planning tool that is focused on making Mapleton a more inviting destination and ensuring that it is a business friendly community. We are currently working towards achieving the goals and objectives outlined in this plan.
- Amended Municipal CIP to align with County CIP and maxed out municipal funding for the year

Meaford

- **Façade Improvement Grant & Loan Programs**—These programs are intended to assist property owners of lands and buildings within the CIP area with the financing of building façade improvements; provides 50% matching funds up to \$7,500 per project.
- **Façade Improvement & Accessibility Upgrade Loans:**
 - No interest loan with 10 year amortization
 - Fully open with early payment discount (forgiveness) of 2.5% per year
 - Minimum \$10,000, Maximum \$50,000 loans available
 - Repayment deferred for 6 months (Façade) or 8 months (Accessibility) with installments due monthly thereafter
- **Commercial Development Charge Grant** - This program is intended to assist owners with financing the construction of new commercial units through redevelopment and/or expansion of existing buildings within the Downtown CIP area. Grants are available in the amount of up to 100% of the Commercial Development Charge, to a maximum of \$25,000.
- **Tax Incremental Equivalent Grant** - This program is intended to provide incentive for the rehabilitation and redevelopment of properties within the Downtown CIP Area. It's effect is to provide a grant for a portion of the Municipal taxes attributable to the increased assessment arising from improvements. Phase-in of the tax increase occurs over a 10 year period, representing a grant of 100% of the increase in year one and 10% in year ten.

Minto

- CIP Program (over \$30,000 approved in grants to August)

Downtown Revitalization

- Digital Main Street
- Downtown Revitalization Capital Project “Our Towns Rising” – RED Grant for 2020 and 2021 (\$139,849 project – received \$41,955 in RED funds)
- Public Art—“These Booths were made for Talking”

Downtown/Area Specific Programs

Mississauga

Downtown/Area Specific Programs

Thorold

- **Façade Improvement Grant Program** – Grants will be available for the Downtown Thorold Area equal to 50% of the eligible costs to a maximum of \$10,000 per building.

Thunder Bay

Grant Program in Strategic Core Areas available to property owners who develop, rehabilitate and improve their buildings and properties that offers a grant equal to the fees paid for planning and building permit applications and equal to 5% of the value of construction, up to a maximum total grant of \$25,000 per property.

The Port Authority Community Improvement Plan provides eligible property owners or tenants with the following three financial incentive programs, designed to stimulate investment and encourage redevelopment in the Project Area:

- The Port Tax Increment-Based Grant Program provides a grant equal to 100% of the increase in municipal taxes that result from reassessment of improved properties.
- The Port Development Grant/Loan Program makes it possible for the City to offer direct grants or loans, on an individual project basis, to offset the costs associated with major developments on lands in the Project Area.
- The Planning and Building Fee Grant Program provides a grant equal to 100% of the fees paid for most planning approvals and building permits.

The Thunder Bay International Airport Community Improvement Plan provides for the Aerospace Tax Increment-Based Grant Program which is a grant equal to the incremental municipal property taxes resulting from the introduction, expansion or improvement of any aerospace activity.

Downtown/Area Specific Programs

Tillsonburg

- **Alleyway Façade Improvement Grant Program**—This program is intended to provide grants to property owners in the Central Area to assist with non-street front façade improvements to be consistent with the Central Area Design Study. Offers 505/50 matching funds up to a max of \$10,000 per project
- **Architectural Design Grant Program**—This program is intended to provide a grant to owners of lands and buildings in the Central Area who wish to hire a professional such as an architect, an engineer or accredited designer to develop a project concept for other programs offered under this CIP.
- **Façade Improvement Grant**—This program is intended to provide a loan or grant to encourage exterior renovations which are in keeping with the desired aesthetic effect and historical/heritage characteristics of buildings within designated areas. Offers 505/50 matching funds up to a max of \$10,000 per facade
- **Tax Increment Equivalent Grant Program**—This program is intended to provide a grant to owners of lands and buildings who undertake improvements or redevelopment that result in an increased property assessment. Such improvements or redevelopment are also to be generally in-keeping with the objectives of the Town’s Strategic Plan and design principles of the Central Area Design Study. Rebate of 100% of increased taxes in year 1, 80% in year 2, 60% in year 3, 40% in year 4, 20% in year 5, fully taxable in year 6.
- **Grant in Lieu of Permit Fes Program**—Grant to rebate the cost of fees for Building Permits for commercial and industrial properties in the CIP area. Commercial Properties outside of the Central Area are not eligible for building permit grants.
 - **Industrial - Small**
 - Minimum project value of \$150,000 and maximum project value of \$500,000
 - Grant of 100% of the applicable building permit fees offered as a rebate once the project is completed
 - **Industrial – Large (Project value of \$500,000 or more)**
 - Grant of 50% of the applicable building permit fees offered as a rebate once the project is completed
- **Commercial (Central Area)**
 - Minimum project value of \$150,000
 - Grant of the applicable building permit fee offered as a rebate once the project is complete as follows:
 - 25% Rebate – General renovations/rehabilitations
 - 50% Rebate – Projects that will improve the overall attractiveness of the streetscape and downtown;
 - 75% Rebate – Projects that meet above criteria and provide exemplary attention to detail and a high level of design.

Legal and Registration Costs

Grant to reimburse legal costs and costs associated with the registration of agreements associated with the above programs.

- This may take the form of Town staff registering applicable agreements on title, or a grant to a maximum of \$200 to reimburse legal costs of having a solicitor register the applicable agreements on title.

Downtown/Area Specific Programs

Timmins

- A Community Improvement Plan for the downtown core areas of the City is currently underway and will identify a variety of incentive programs to encourage investment and improvements.

Toronto

- Supplementary programs in Streetscape Improvement, Commercial Facade Improvement, Banner and Mural, Commercial Research, and Community Festivals and Special Events are also offered.

Vaughan

- Major Office and Mixed Use Development Incentives in Vaughan Metropolitan Centre (Downtown Vaughan CIP)
 - Development Charge (DC) Grant/Reduction Program (Financial)
 - Development Charge Deferral Program (Financial)
 - Tax Increment Equivalent Grant (TIEG) Program (Financial)
 - Cash-in-Lieu of Parkland Exemption/Reduction Program (Financial)
 - Podium Parking Incentives Program (Non-financial)
 - Expedited Development Approvals Program (Non-financial)
- Major Office and Mixed Use Development Incentives in W&7 Primary Centre (Weston Road and Hwy 7 CIP)
 - Development Charge (DC) Grant/Reduction Program (Financial)
 - Tax Increment Equivalent Grant (TIEG) Program (Financial)
 - Cash-in-Lieu of Parkland Exemption/Reduction Program (Financial)
 - Expedited Development Approvals Program (non-financial)

Waterloo (City)

- Uptown Community Improvement Plan—Includes façade improvement grants, study grants, fee grants, major & minor activity grants (including employment related TIGs), commercial building improvement loans & a parking exemption program
- Northdale Community Improvement Plan —Includes a development charge grant program; tax increment grant program; residential intensification and affordability loan/grant program; residential rehabilitation grant program; urban design & study grant preprogram; and a planning and building fees grant program.
- The City has a façade program that provides up to \$15,000 in interest free loans.

Waterloo (Region)

- **Revitalization Area Incentives**
 - The Region provides a development charge reduction for development occurring within a core area of the City of Cambridge, provided City of Cambridge also provides the reduction.
 - The Region provides a 50% reduction in the development charge for the portion of an office building that is the third floor or above, having a gross floor area of at least 20,000 sq. ft., and located within an Urban Growth Centre.

Downtown/Area Specific Programs

Welland

- Welland’s Downtown and Health and Wellness Cluster CIP promotes revitalization, reinforces Downtown as a mixed use, transit supportive area, and encourages uses in the Health and Wellness Cluster that strengthen Welland’s health and wellness resources. The CIP includes a Public Realm Improvement Plan which identifies opportunities to improve the overall image and sense of community within the Project Area. Several financial incentive programs designed to stimulate private sector investment activity in the revitalization and redevelopment of the Project Area are also included.
- **Façade Improvement Loan Program**—Provides assistance to rehabilitate and improve facades of commercial buildings in the Downtown Community Improvement Area. The loan covers 50% of the eligible improvement costs to a maximum of \$15,000 per municipal address.
- **Downtown Building Improvement Grant Program**—This program provides a financial incentive in the form of a grant to promote interior and exterior maintenance and improvement works to existing commercial, institutional and mixed use buildings and properties. The program is structured as a matching grant program where the City will provide a grant equal to 50% of the cost of certain types of building maintenance and improvement works, up to a maximum grant of \$12,500 per property/project
- **Residential Grant Program**—The City will provide a grant equal to the cost of rehabilitating existing residential units and/or constructing new residential units on the basis of \$15 per square foot of habitable floor space rehabilitated or constructed, to a maximum grant of \$15,000 per unit, and a maximum of 4 units per property/project (total maximum grant of \$60,000 per property/project).
- Residential DC exemptions in the downtown
- Refunding most planning and building permit fees and parkland dedication fees. Assistance will be 50% for projects other than those creating new residential units and 100% for new residential rentals.
- Interest free loans to pay for conversion of existing commercial space to residential units and the construction of new units on vacant land. The maximum loan amount is to be calculated based on \$10 per square foot of habitable space, with a maximum term of 10 years.
- Tax Increment Grant Program is structured as a “pay-as-you go” program. The owner is expected to initially pay for the entire cost of the project. Then, as the municipality receives the increased property taxes that result from the project, the City will reimburse the owner in the form of an annual grant. The grant is equivalent to 80% of the municipal tax increment (the increase in City and Regional property taxes) that results from the project for up to 10 years or up to the time when total grant payments equal the total eligible program costs.
- Waiving or reduction in residential parking requirements for improvements or change of use to existing buildings and additions or new building construction as set out in the Zoning by-law.

County of Wellington

- **Community Improvement Plans (CIP)**—four approved, one underway in 2017
- **Two Business Improvement areas and five Chambers**
- **Shop Local Programmes**
- **Countywide business directory**

Downtown/Area Specific Programs

Wellington North

Since 2012 the Community Improvement Plan (CIP) provides grants in an effort to support revitalization activities. Downtown Revitalization Committee’s established as Committee’s of Council for both urban areas and in Arthur we established a Business Improvement Area (BIA) and Board in 2019. **Community Improvement Plan with Grant/Loan Programs for:**

- Façade Improvement Grant and Loan Program
- Accessibility Grants
- Application Fees and Development Charges Grant
- Public Art Grants
- Building Improvement Grants
- Tax Increment Equivalent for Rehabilitation and Redevelopment Grants
- Building Conversion/Expansion Grants.

Whitby

CIP - The Downtown Whitby Community Improvement Plan (CIP) provides a “toolbox” of incentive programs to help transform the Downtown into a dynamic, social, and cultural district.

- **Development Charge (DC) Exemption**—This program provides full or partial exemption from a portion of the Town’s Development Charges for eligible developments within the Community Improvement Project Area (CIPA) specific to:
 - High Density Residential and Residential Mixed Use receive a 75% DC exemption within Historic Downtown Whitby Priority Area (HDWPA) and a 50% DC exemption outside of HDWPA.
 - Retail and Office Expansion provides a 100% DC exemption for existing retail commercial and office buildings enlarged by up to 50% of existing Gross Floor Area up to a max of 929m2 (10,000 sf) within the HDWPA. It also gives a 100% DC exemption for existing retail commercial and office buildings enlarged by up to 50% of existing Gross Floor Area up to a max of 464m2 (5,000 sf) outside the HDWPA.
 - New Office Development receive a 75% DC exemption for new office development that exceeds 90m2 (968 sf) in the HDWPA and a 50% DC exemption for new office development that exceeds 90m2 (968 sf) outside of the HDWPA.
- **Cash in Lieu of Parking**—This program offers a 50% discount on existing cash-in-lieu of parking rate for non-residential development in the CIPA, with a rate of \$3,750 (plus tax) per surface parking space.
- **Tax Increment Equivalent Grant (TIEG)** - This program is used when a property improvement results in an increase of the property’s assessed value. The TIEG provides a rebate equal to a portion of the increase in municipal taxes on non-residential development. There is a 45% rebate on the municipal tax increment on a declining basis over a five year period within the HDWPA for eligible non-residential (commercial and office) development and redevelopment.

Downtown/Area Specific Programs

Whitby (cont.)

- **Façade Improvement Grant**—This grant provides property owners and tenants of commercial or institutional zoned buildings with financial assistance to enhance and improve the aesthetic quality of their building and property.
 - There is a 50% rebate of the costs of external improvements in the HDWPA, up to \$10,000.
 - Additionally there is a 50% rebate of the costs of external improvements outside of the HDWPA, up to \$7,500.
 - Finally, there is a 50% rebate for the costs of external improvements of designated heritage outside of the HDWPA, up to \$10,000.
- **Sign Grant**—This financial tool provides assistance for owners and tenants of commercial or institutional zoned buildings to partially offset the cost of maintenance, restoration, and improvement of signage and associated lighting. The rebate equals 50% of the cost of signage and associate lighting within the CIPA, equalling up to \$2,000.
- **Interior Heritage Building Grant**—This grant provides owners and tenants of listed or designated heritage buildings an incentive to partially offset the costs of eligible interior building improvements.
- **Design Grant**—The Design Grant provides additional funding to assist with professional fees associated with the Façade Improvement, Sign and Interior Heritage Building Grant programs.
- **Brooklin**—The Downtown Brooklin Community Improvement Project Area is centred along Baldwin Street and applies to commercially zoned properties. The Downtown Brooklin CIP includes 2 programs, all of which provide financial incentives to achieve current community goals and priorities located in the boundary: 1) Façade Improvement Grant; 2) Design Assistance Grant.
- **Façade Improvement Grant**—The Town of Whitby established the Façade Grant Program in 2005 to encourage building owners and business owners in Downtown Brooklin to restore and beautify their properties. This grant provides property owners and tenants of commercially zoned buildings with financial assistance to enhance and improve the aesthetic quality of their buildings and priority.
 - 50% rebate of the costs of external improvements in the Brooklin Community Improvement project Area, up to \$5,000.
 - Grants can apply to external improvements such as painting, brick restoration, signage, lighting, permanent hard landscaping amongst other items.
- **Design Assistance Grant**—The Design Assistance Grant provides additional funding to assist with professional fees associated with the Façade Improvement Grant program including design fees related to signage.
 - 50% rebate of the cost for professional design fees up to \$1,500 within the Brooklin Community Improvement Project Area.

Downtown/Area Specific Programs

Whitchurch-Stouffville

- **Downtown Community Improvement Program** – Aims to revitalize the downtown area restoring the ‘country town’ feel and centrality to the community. The program has been designed to brand the downtown area, and create an atmosphere that encourages the consumer to visit and stay longer in downtown Stouffville.

Windsor

- Development Feasibility Rebate Program—Eligible projects, grant of up to 50% to max. of \$20,000 per property
- Parkland Dedication Fee Rebate Program – 100 % grant
- Property Improvement Rebate Grant Program—Tax rebates of up to \$200,00 are available
- Commercial Façade Improvement Program—Grant of 50% to maximum of \$15,000
- Development Charges and Building Fee Rebate Grant Program—Rebate of up to 100% of eligible costs for development charges and building fees
- Sale of City Land at Less Than Market Value—Sold to developers at less than market value
- Downtown Windsor BIA—Façade Improvement Grant—Grant of up to 50% of eligible costs to a maximum of \$10,000 or \$15,000 for corner properties
- Downtown Windsor Business Improvement Area Broken Window Program—Reimburse members for 50% of cost of glass repairs/replacement to a maximum of \$500

Brownfield Redevelopment

A “Brownfield site” is considered to be a property with or without buildings or structures, having a history of either industrial or commercial uses and which, as a result of these uses, has become environmentally contaminated under circumstances where there is no reasonable prospect that the remediation of such contamination will be accomplished solely by the private sector. Brownfields are viewed by many as opportunities for revitalizing urban communities. Some of the advantages of Brownfield Redevelopment include:

- Revitalization of the downtown core and surrounding neighbourhoods
- More effective use of existing municipal infrastructure
- Reduction in pressure for suburban expansion
- Clean-up of environmentally contaminated sites
- Increased tax revenue
- Create jobs
- Improve the overall liveability of urban neighbourhoods

Tax assistance and grants are the most commonly offered incentives for remediation. These include but are not limited to grants, fee exemptions, reductions, loans and tax assistance.

Brownfield Redevelopment

Barrie

Redevelopment Grant

The Redevelopment Grant will provide financial incentives for development/redevelopment projects which provide affordable housing; remediate and redevelop brownfield sites within the Built Boundary, and develop ground related commercial in combination with the appropriate density and built form to support transit, walkability and animated streets in the intensification areas identified on Schedule I on the Official Plan. Depending on the redevelopment project the grant includes:

- % of planning application fees;
- % of building permit fees;
- % of the development charges;
- Costs of environmental studies for brownfields and some remediation costs may be included;
- Tax increment payments paid in decreasing increments over a 5 year period.

Brockville

- **Tax Increment Equivalent Grant (TIEG)**—The grant is equivalent to 70% of the municipal portion of the increase in property tax which is generated through redevelopment, payable for a maximum of ten (10) years, or until the grant equals total eligible costs.
- **Brownfield Financial Tax Incentive program (BFTIP)**—Brownfields property tax cancellation may include both the municipal portion of property tax as well as the provincial education portion of property taxes. The application of this program is limited to cancellation of the increase in property tax arising from the remediation and redevelopment of major development sites.
- **Environmental Site Assessment (ESA) Grant Program**—The aim of the program is to provide assistance to further specify the extent and nature of environmental contamination through part-funding of Phase II ESA and Phase III ESA (Remedial Action Plan). The program will reimburse the owner for costs associated with eligible studies with a maximum individual grant of \$15,000 or 50% of the cost of ESA, whichever is less, and a maximum assistance per property of 2 studies per property, to a maximum of \$25,000 per property.
- **Brownfield Building Permit Fees Grant Program**—Assistance is in the form of a grant paid against building permit fees payable for each project. The grant may be less than 100% and in all cases is limited by the 100% cap or total eligible cost, whichever is less.

Caledon

Environmental Study Grant Program offers grants to eligible property owners for the completion of Phase II Environmental Site Assessment (ESA), a Phase III ESA, Remedial Work Plan, and/or Risk Assessment Plan for properties that are within the designated **Community Improvement Project Area for Bolton**.

Brownfield Redevelopment

Cambridge

Contaminated Sites Grant Program

- The Contaminated Sites Grant Program is offered to property owners (or their authorized agents) to help cover the costs of doing environmental clean-up in the Core Areas. This grant can be applied to all new development or redevelopment projects doing clean-up activities which result in a “Record of Site Condition” acknowledged by the Ministry of the Environment and Climate Change. Funding must be approved before the remediation work begins.
- Residential Development: a maximum of \$1,500 is available per residential unit.
- Non-Residential Development: a maximum grant is available of \$10 per m2 of gross floor area.

Incentives – Brownfield Sites

- **Joint Tax Increment Grant**— A grant to assist property owners with the remediation of brownfield sites throughout Cambridge. Payments are made after the site has been remediated, redeveloped and reassessed. Total amount is generally based on eligible remediation costs. Yearly payments are made to successful applicants (each application for a maximum of 10 years) based on post-development tax assessment increases.
- **Development Charge Reduction for Contaminated Sites**— Where a property owner proposes to develop or redevelop a contaminated site that requires remediation, an amount can be credited against the development charge otherwise payable equal to the amount of the costs to clean-up the site. Reduction equal to the costs of assessment and cleanup of the property, up to the total municipal portion of the otherwise payable development charge. Note: Development Charges collected by School Boards are not included in reductions.

Centre Wellington

- Contaminated Site Assessment Grant, Brownfield Grants

Chatham-Kent

- The Chatham-Kent Brownfield and Bluefield Community Improvement Plan can significantly reduce the cost of rehabilitation and development projects on brownfield sites. Incentives include:
 - Feasibility Study Grant
 - Environmental Study Grant
 - Tax Assistance Program
 - Rehabilitation Tax Increment Based (TIB) Grant

Clarington

- No development charge shall be imposed with respect to developments or portions of developments that result in the addition of a single unit within the existing footprint.
- Brownfield credits are available equal to the costs of assessment and cleanup

Brownfield Redevelopment

Cornwall

- **Brownfields Rehabilitation Tax Increment Grant**—The City will reimburse the developer an annual grant equivalent to all or part of the municipal tax increase
- **Environmental Site Assessment and Project Feasibility Study**—Assistance is provided to specify the extent of contamination through partial funding of an Environmental Site Assessment
- **Municipal Planning/Development Fees Grant**—A program to assist developers by rebating up to 100% of municipal planning and development fees
- **Discretionary Municipal Tipping Fees Grant**—Reduction of tipping fees related to removal and disposal of non-hazardous material at the City landfill site

Gravenhurst

- The Town of Gravenhurst has waived all development charges for Industrial and Commercial development.
- Redevelopment of a building including under 9 residential units will be exempt from Development Charges.

Greater Sudbury

- Four financial incentive programs are available under the Brownfield CIP to help stimulate the remediation and redevelopment of urban brownfields. The available programs are:
 - Tax Assistance Program
 - Landfill Tipping Fee Rebate Program
 - Planning and Building Permit Fee Rebate Program
 - Tax Increment Equivalent Grant Program

Guelph

- City of Guelph Brownfield Strategy and Brownfield Redevelopment Community Improvement Plan
- Environmental Study Grant Program
- Tax Increment-Based Grant Application Program
- Tax Assistance and Tax Arrears Cancellation Policy

Halton Region

- Halton Region’s Program for Community Improvement Plans (CIPs) allows the Region to provide grants to Halton Local Municipalities in support of applications to their CIP programs on the condition that these applications meet the Regional Program requirements, including implementing Regional Official Plan objectives

Brownfield Redevelopment

Hamilton

Environmental Programs—The **Environmental Remediation and Site Enhancement (ERASE) Community Improvement Plan** is a comprehensive set of programs designed to encourage and promote brownfield redevelopment. Most ERASE programs are available in the entire urban area of the City of Hamilton.

- ERASE Redevelopment Grant Program (ERG), Development Charge Reduction Option Program, Education Tax Assistance Program, Municipal Acquisition and Partnership Program, Study Grant Program
- LEED Grant Program
- Downtown/West Harbourfront Remediation Loan Program

Innisfil

- **Barrie Road Community Improvement Plan**—Developed to stimulate high quality redevelopment along the Barrie Road corridor, this CIP features a property improvement tax grant program.

Kitchener

- The City in conjunction with the Region of Waterloo have a Brownfield Financial Incentive Program. They include a series of financial incentives that will assist property owners and developers with costs associated with the environmental investigation, remediation and ultimate redevelopment of brownfield sites.

London

Community Improvement Plan for Brownfield Incentives offers 4 programs to assist property owners with remediating and redeveloping brownfield sites:

- **Contamination Assessment Study Grant** – This program provides a grant for 50 percent of the cost to conduct a Phase II Environmental Site Assessment, Remedial Action Plan and/or Risk Assessment in accordance with the requirements under the *Environmental Protection Act*. The maximum grant provided is \$10,000 per property, subject to available funding.
- **Property Tax Assistance Program*** – This program provides for the cancellation of 25% of the municipal property taxes for up to three years during which rehabilitation and development activity is taking place. The property would also be eligible to receive matching education tax assistance from the Province, subject to available funding and approval by the Minister of Finance.
- **Development Charge Rebate*** – This program provides a grant for up to 50% of the normal development charges to cover eligible remediation costs. This rebate is intended to reduce the “up-front” development costs and encourage investment by landowners.
- **Tax Increment Equivalent Grant*** – This program provides a grant equal to the increase between the pre-development and post-development municipal property tax after rehabilitation and development has taken place. The grant can be provided for a maximum of three years from the date of the increase in assessed value.
- Cumulative value of the three programs cannot exceed the eligible remediation costs. Municipal Council approval is required.

Brownfield Redevelopment cont'd**Niagara Falls****Brownfield Community Improvement Plan**

- Offers grants to help offset the cost of environmental studies such as Phase II ESA, and a Rehabilitation Grant to freeze property taxes during remediation with a tax increment based grant to offset the costs of remediation and redevelopment.
- A residential development charge exemption of up to 75% with a further 25% possible based on eligibility requirements including intensification, creation of mixed uses or walkable design is available

Norfolk

- **Environmental Site Assessment Grant (DCS-12):** Purpose is to promote the undertaking of Environmental Site Assessments (ESAs) so that more and better information is available with respect to the type of contamination and potential remediation costs on eligible properties. Phase I ESAs are not eligible for funding under this program. The program is designed for Phase II and Phase III ESAs. The program is available in the urban, hamlet, agricultural, and lakeshore areas. The maximum Environmental Site Assessment grant amount is \$15,000 per property (excluding HST) and is based on a 50/50 matching cash contribution of the applicant.
- **Property Tax Increment Grant (DCS-07):** Purpose is to provide an economic incentive for the rehabilitation of properties by providing a grant to the owner of the property to pay a portion of the local taxes (excluding education taxes) attributable to the increased assessment over a five year period. The program is available in the urban, hamlet, agricultural and lakeshore areas. The grant is calculated based on the increased assessment value after the renovation/construction, as determined by the Municipal Property Assessment Corporation (MPAC), at the tax rate that was applicable in the year the renovation or construction was completed. The site specific funding agreement will stipulate the pre-improved and post-improved assessed value, applicable municipal tax rate of that year, the amount of the grant in that year, the method to be used to calculate the grant in the subsequent four years using municipal tax rates to be determined in each of those years, and the anticipated delivery dates of the grant.

Brownfield Redevelopment cont'd

Oakville

- This program provides for a grant equal to 50% of the cost of eligible environmental studies to a maximum:
 - Grant \$30,000 for Phase 1 EAS
 - Grant of \$20,000 for any eligible environmental study
 - Of two studies per project and \$30,000 per project

Orillia

- The **Barrie Road Improvement Corridor CIP** was developed to stimulate high quality redevelopment along the Barrie Road corridor. This CIP features a property improvement tax grant program.

Oshawa

- **Brownfields Property Tax Cancellation Program**—This is intended to provide incentives to encourage the rehabilitation of brownfield sites by utilizing the tax cancellation provisions under section 365.1 of the Municipal Act, 2001. The City may also apply to the Region of Durham for regional property tax assistance, and to the Province for matching education property tax assistance.
- **City of Oshawa Brownfields Redevelopment Grant Program**—Starts after the Brownfields Tax Cancellation Program ends and will provide an annual City grant to property owners who undertake redevelopment of their properties in the Community Improvement Project Area that will result in an increase in assessment. The program also serves to encourage re-development that may not otherwise occur on lands that have undergone or require site remediation as confirmed in a Phase II Environmental Site Assessment.

Owen Sound

- **Brownfields Financial Tax Incentive Program (City-wide)**

St. Catharines

- **Tax Increment Finance (TIF) Program** - for soil remediation and/or redevelopment projects.
- **Brownfield Tax Assistance (BTA) Program** - for remediation of contaminated soils

Brownfield Redevelopment cont'd

Stratford

- Phase 2 Environmental Site Assessment Grant Program – a grant covering 50% of the cost of a Phase 2 Environmental Site Assessment, to a maximum of \$10,000, to owners and bona fide purchasers of brownfield sites.
- Tipping Fees Grant Program – a grant covering tipping fees for materials which can be accepted at the City of Stratford’s Landfill site in accordance with the City’s Certificate of Approval from the Ministry of the Environment.
- Brownfield Fees Grant Program – a grant covering Zoning By-law Amendment, Minor Variance, Site Plan Amendment, Change of Use Permit and Demolition Permit application fees related to the redevelopment of brownfield properties.
- Brownfield Redevelopment Grant Program – a grant covering the difference between the municipal portion of taxes prior to work being completed and the municipal portion of the taxes after completed of the works. The amount of the grant is pro-rated over 10 years.

Thorold

- A property tax assistance that provides for the exemption of up to 100% of taxes levied, subject to budget consideration, for the period immediately following the approval of the Property Tax Assistance By-Law and continuing during the Rehabilitation Period and Development Period.

Thunder Bay

The Port Authority Community Improvement Plan provides eligible property owners or tenants with the following three financial incentive programs, designed to stimulate investment and encourage redevelopment in the Project Area:

- The Port Tax Increment-Based Grant Program provides a grant equal to 100% of the increase in municipal taxes that result from reassessment of improved properties.
- The Port Development Grant/Load Program makes it possible for the City to offer direct grants or loans, on an individual project basis, to offset the costs associated with major developments on lands in the Project Area.
- The Planning and Building Fee Grant Program provides a grant equal to 100% of the fees paid for most planning approvals and building permits.

The Thunder Bay International Airport Community Improvement Plan provides for the Aerospace Tax Increment--Based Grant Program which is a grant equal to the incremental municipal property taxes resulting from the introduction, expansion or improvement of any aerospace activity.

Tillsonburg

- This program is intended to stimulate private sector investment in the reuse and redevelopment of brownfield sites and partially offset the costs associated with the site assessment and remediation. Incentives offered by the Town include a grant equivalent to 50% of the cost of a Phase II Environmental Site Assessment, designated substances and hazardous materials survey, remedial work plan or risk assessment. A maximum grant of \$5,000 is recommended per environmental study and per property.

Brownfield Redevelopment cont'd

Waterloo (City)

- Brownfields Community Improvement Program – In partnership with the Region of Waterloo the City offers a tax increment grant (TIG) program to offset remediation costs for brownfield properties.

Waterloo (Region)

- **Joint Tax Increment Grants** (with City of Cambridge, City of Kitchener, City of Waterloo, Township of Wellesley)
- A grant to assist property owners with the remediation of brownfield sites throughout the cities of Cambridge, Kitchener, and Waterloo. Payments are made after the site has been remediated, redeveloped and reassessed.
- Total amount is generally based on eligible remediation costs. Yearly payments are made to successful applicants (each application for a maximum of 10 years) based on post-development tax assessment increases.
- **Regional Development Charge (RDC) Exemptions** (available Region wide)-All developments on brownfield sites are eligible for a Brownfield RDC Exemption. The value of the RDC Exemption is based on the total eligible costs of remediation (100% from August 1, 2019 to December 31, 2021 and 50% from January 1, 2022 to July 31, 2024) to a maximum of \$1 million.

Welland

- Welland's Brownfield Community Improvement Plan (CIP) provides a framework of financial incentive programs, strategies and actions to encourage and promote remediation and redevelopment of Brownfield properties within the defined project area. Redeveloped Brownfield sites add value to the community with combined social, environmental and economic benefits.
 - Environmental Site Assessment Grant Program
 - Brownfields Tax Assistance Program
 - Brownfields Rehabilitation Grant Program.

County of Wellington

- Some tax increment based on grant applications

Windsor

- **Feasibility Study Grant Program** – 50% of cost of study, maximum \$7,500
- **Environmental Site Assessment Grant Program** – 50% to maximum \$15,000 per study, maximum 2 studies per property/project, maximum \$25,000 per property/project
- **Brownfields Tax Assistance Program** – Cancellation of municipal and education property tax increase for up to 3 years
- **Brownfields Rehabilitation Grant Program** – 70% (no LEED certification) or 100% (any LEED certification) of the municipal property tax increase for up to 10 years after project completion.
- **Brownfields Development Charge Exemption Program** – Up to 60% reduction of development charge payable on a brownfield site approved under the Brownfields Rehabilitation Program.
